Project Background

- Planned extension of Centennial Boulevard by the City since 1980's
- Originally a six-lane principal arterial, now a four-lane minor arterial
- **2015-2017** – Design and Public Involvement
- **Phase 1 Construction - Complete.** Built missing segment from Fillmore Street to Van Buren Street in 2019.
- **Phase 2 Construction -**
 - MVS Voluntary Clean-Up (VCUP) is nearly complete.
 - Construction of Centennial Boulevard extension from Van Buren Street to Interstate-25, including utility and drainage infrastructure, paving, pedestrian facilities, lighting, and landscaping.
 - Construction north of Van Buren Street includes final striping, signage, pedestrian facilities, pavement rehab, lighting, and landscaping.

Construction Schedule

Complete:	Overhead electric transmission lines moved underground
Feb/Mar 2021:	MVS voluntary clean-up completed
Apr 2021:	Contractor selection by the City
May/June 2021:	MVS property grading work completed 7th Street to the northwest
Spr/Summer 2021:	Road project construction start
2022/2023:	Road project construction completed
