\* 2020 Amended Budget as of 8/31/2020, which may include budget reductions due to the economic shutdown and revenue loss as a result of the COVID-19 pandemic

\*\* The Grants Fund Appropriation includes appropriation for new grant funding, and may include re-appropriation of prior year grants not awarded, as well as local match. However, the CIP table on a subsequent page of this narrative reflects only new grant funding. See Grants Overview for more information.

## Significant Changes vs. 2020

- Increase of approximately \$90,000 to fund existing positions, pay for performance, and medical and dental cost adjustments
- Net decrease of approximately \$996,000 due to the transfer of 42 positions for the sweeper and drainage operations and associated operating costs, and the increase in the reimbursement to the Operations and Maintenance division in the General Fund through a Service Level Agreement for the drainage operations
- Increase of \$1,500,000 to fund CIP projects
- Decrease of approximately \$12 million in grant appropriation due to 2019 anticipated grants that were re-appropriated in 2020, the year the grant award was received

## Stormwater Enterprise - Overview

---

The Stormwater Enterprise's primary focus is to implement a program to responsibly manage the City's stormwater system. This includes the management of the City's Municipal Separate Storm Sewer System (MS4) Permit, management of the City's drainage basins, stormwater development reviews, stormwater capital construction projects, stormwater infrastructure maintenance, as well as the administration. The stormwater permit addresses stormwater quality with an emphasis on controlling and limiting pollutants to the City's drainage system through maintenance and Best Management Practices.

### Management of the MS4 Permit

- Administers the City's Municipal Separate Storm Sewer System (MS4) Permit to ensure compliance with federal and state stormwater regulations including education, pollution prevention, inspections, and construction controls.

### Drainage Maintenance

- Evaluation and implementation of drainage improvements to address street flooding, drainage way repairs and failing infrastructure.
- Maintenance of the City stormwater system includes maintaining detention ponds and pipes, and removal of debris from inlets, culverts, and channels. In addition, crews repair and stabilize stream banks.

### Stormwater Development Reviews and Inspections

- This includes review and approval of all drainage reports, municipal drainage discharge permits, drainage basin planning studies, grading and erosion control plans and narratives, and all other drainage related documents.

### Capital Construction Projects

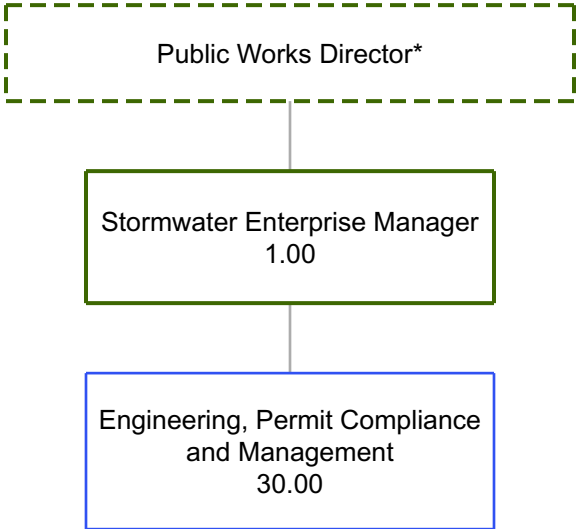

- Manages stormwater capital construction projects.

### Business Administration

- Supports the fee assessment and collection, billing coordination, customer service and GIS support along with budgeting, revenue and financial tracking and reporting.

† In April of 2017, voters approved the retention and spending of \$6 million that exceeded the TABOR revenue limitation, received by the City during fiscal years 2016 and 2017 (appropriated in 2017 and 2018 respectively). The ballot item required that funds only be used for stormwater projects located within and benefiting the City of Colorado Springs. The totals shown for 2018 and 2019 Actuals include spending of the \$6.0 million for the TABOR Revenue Retention on stormwater projects, along with amounts that were previously budgeted in projects at the time when the stormwater function was in the General Fund.

\* 2020 Amended Budget as of 8/31/2020, which may include budget reductions due to the economic shutdown and revenue loss as a result of the COVID-19 pandemic

\*\* In April of 2017, voters approved the retention and spending of \$6 million that exceeded the TABOR revenue limitation, received by the City during fiscal years 2016 and 2017 (appropriated in 2017 and 2018 respectively). The ballot item required that funds only be used for stormwater projects located within and benefiting the City of Colorado Springs. The totals shown for 2018 and 2019 Actuals include spending of the \$6.0 million for the TABOR Revenue Retention on stormwater projects, along with amounts that were previously budgeted in projects at the time when the stormwater function was in the General Fund.
