Office of Emergency Management - Overview

With the devastating fires, floods, and pandemics in recent years, Emergency Management has become increasingly critical to the safety of our residents. The mission of the Pikes Peak Regional Office of Emergency Management (PPROEM) is to build resilience for the whole community through risk reduction, education, emergency coordination, and disaster recovery. The PPROEM develops and maintains crucial relationships with other governmental, non-governmental entities, and the private sector to coordinate regional preparedness activities. The PPROEM provides leadership and coordination to public and private entities and the general public during large multi-agency planned events, human-caused or natural hazard events, emergencies, and disasters. Staff maintains the Regional Emergency Coordination Center in a state of readiness.
