Proposed Land Exchange

The City of Colorado Springs Parks, Recreation and Cultural Services Department is pleased to seek community input on an exciting opportunity for our community's park system made possible through a land exchange with the **INSERT LEGAL NAME HERE** (Broadmoor). This proposed land exchange provides an opportunity to achieve several major goals identified in the Colorado Springs Parks System Master Plan including: Preserving and expanding our open space system, connecting our trail system, securing public access to valued recreational trail corridors that currently traverse private lands, and providing additional recreational opportunities within our community for horseback riding and picnicking.. The major tenets of the proposed land exchange are as follows:

The Broadmoor will trade to the City of Colorado Springs approximately 155 acres of property located at the top of Ruxton Canyon in Manitou Springs. This property includes segments of the Barr Trail and the Manitou Incline. What will be achieved?

Secure public access and public ownership of the Barr Trail. The Barr Trail currently traverses private property at this location. El Paso County held an agreement with the Broadmoor that permitted public access for the Barr Trail. This agreement expired in 2012 – jeopardizing the future of this extremely popular trail. Public ownership of this property will secure public access to this segment of the Barr Trail. The City's ownership of the property would place all of the Barr Trail in public ownership.

Ensure public ownership of the Manitou Incline. The Manitou Incline currently traverses private property at this location. The City of Colorado Springs currently holds an agreement with the Broadmoor that permits public access for the Manitou Incline; however, public ownership of the Incline would secure its future and result in management and operations efficiencies. The City's ownership of this property would place all of the Manitou Incline in public ownership.

Provide for future North Access Trail to the Incline. The Management Plan for the Manitou Incline identifies the need for an additional access trail on the north side of the Incline to alleviate heavy trail use on Barr Trail. Acquisition of this property would provide a publically owned corridor of land for this important future trail connection.

Protect open space and the mountain backdrop. In accordance with community open space plans, the City of Colorado Springs and the City of Manitou Springs seek to protect important natural resource areas and preserve views of the foothills. Acquisition of this property would preserve and protect these resources for future generations.

The City of Colorado Springs will trade to the Broadmoor approximately 0.55 acres property located adjacent to the Manitou Hydro Electric Facility in the vicinity of the Cog Railway. What will be achieved?

Secure parking for the Cog Railroad. The Cog Railway currently uses this small gravel lot for parking via a revocable license agreement with Colorado Springs Utilities. The Broadmoor's ownership of the property will secure parking for the Cog Railway into the future.

Retain public utility access. The City of Colorado Springs will retain a permanent utility easement on the property for utility maintenance and operations.

The Broadmoor will trade to the City of Colorado Springs approximately 9 acres of property located along the southern boundary of Bear Creek Park Regional Park, adjacent to 21st Street. What will be achieved?

Preserve property as public open space. This property currently is planned for residential development, including 17 single family homes. Acquisition of the property by the City of Colorado Springs will preserve this land for public open space.

Expand Bear Creek Regional Park. Acquisition of this property by the City of Colorado Springs would secure this land for public open space and recreation purposes. El Paso County Parks will consider managing this property as an expansion of Bear Creek Regional Park.

The Broadmoor will grant to the City trail easements across three properties owned by the Broadmoor, located in proximity to the Cheyenne Mountain Zoo. What will be achieved?

Secure trail easements for the future development of the Chamberlain Trail and Cheyenne Mountain Heritage Trail. These easements will support key segments of the Chamberlain Trail that will provide a unique back country trail experience along the City's foothills, ultimately connecting Cheyenne Mountain State Park, North Cheyenne Cañon, Stratton Open Space, Bear Creek Regional Park, Red Rock Canyon Open Space and Garden of the Gods Park. This alignment will also advance the future development of the Cheyenne Mountain Heritage Trail, envisioned to circumnavigate the base of Cheyenne Mountain. This trail will complement the Ring the Peak Trail, ultimately creating a unique "figure eight" of back country trail opportunities.

The Broadmoor will trade to the City of Colorado Springs approximately 208 acres of property located along the southwest boundary of Cheyenne Cañon Park. What will be achieved?

Secure public access from the Daniels Pass Trail and the Muscoco Trail to Gold Camp Road. The western end of the historic Daniels Pass trail and Muscoco Trail currently traverses private property. The City Parks, Recreation and Cultural Services Department and the Friends of North Cheyenne Cañon have recently invested significant time and resources in improving the eastern segment of the Muscoco Trail. Acquisition of this property will secure public access to these important trails and provide a key trail link to Gold Camp Road.

Secure public access to the Mount Muscoco Overlook. The popular overlook, located just south of the summit of Mount Muscoco, currently is located on private property. Acquisition of this property will secure public access to this popular and historic hiking destination.

Preserve property as public open space and extension of Cheyenne Cañon Park. Acquisition of the property would expand public open space along the Gold Camp Road corridor, enhances connections between existing City-owned parkland and the Pike National Forest, and provides opportunities for future public recreation opportunities in this area.

The City will trade to the Broadmoor approximately 189 acres, known as the Strawberry Hill Area, located within North Cheyenne Cañon Park, south of Mesa Avenue. What will be achieved?

The Broadmoor intends to develop a riding stable and picnic area. Approximately 7 acres of the 189 acres to be traded to the Broadmoor will be developed as a horse stable and group picnic area. The privately owned riding stable and picnic area will be available for use by community residents, organizations and tourists on a fee basis.

Provide fund raising venue. The Broadmoor will provide to the Parks, Recreation and Cultural Services Department access to the group picnic facility for two annual fund raising events, free of rental charge.

Retain public access for the Chamberlain Trail and Cheyenne Mountain Heritage Trail. The Chamberlain Trail (Cheyenne Mountain Heritage Trail) is proposed to traverse the property. The City will retain a public trail easement for the trail corridor.

Retain public access for the South Cañon Trail. The South Cañon Trail traverses the northern edge of the property. The City will retain a public trail easement for this existing trail.

Retain ownership and public access to Hully Gully for ice climbing. At the western edge of the property is a 12 acre parcel that is used for public ice climbing known as Hully Gully. In addition, the City will retain a public access easement across the property to provide public access from Old Stage Road to the ice climbing area.
