I. SERVICES

Local Routes
Mountain Metropolitan Transit (MMT) local routes provided 299,851 one-way trips during June of 2017. Service ran 30 out of the 30 days in June (22 weekdays, 4 Saturdays, and 4 Sundays). Ridership in 2017 shows an increase of 6.44% as compared to the same month in 2016, which had the same number of weekdays, Saturdays, and Sundays. Total ridership for June, 2016 was 281,719. The boardings-per-revenue-service-hour rate for June, 2017 is higher than it was in 2016, which indicates an increase in system efficiency.

**ADA Service**

MTT’s “Metro Mobility” (A.D.A.) service transported 13,474 passengers in June, 2017 which was a 0.46% decrease compared to ridership from the same month in 2016. As with fixed-route, there were 30 service days (22 weekdays, 4 Saturdays, and 4 Sundays) in the month. It is MTT’s policy to limit ADA-required service due to its high per-trip cost but to do so in compliance with ADA and FTA regulations.

II. PROJECTS

Downtown Transit Station Relocation:

The Downtown Transit Station Relocation Study’s preliminary report, as well as updated details and project information can be found on the project website: www.coloradosprings.gov/MetroStation.

The Mayor-appointed steering committee has been meeting the past several months this spring to review the final three (3) feasible sites identified in the Study and making a recommendation for a preferred site to move toward construction. The Committee presented their recommendation to the Mayor on July 17.

Fall 2017 Service Change:

An additional service change is being proposed for this fall. Increased PPRTA sales tax revenues are making this improvement possible. Detail of the proposal and the timeline for implementation is shown below:

Route Improvement – An additional vehicle is being added to the weekday daytime schedule on Route 11 (World Arena-PPCC) to improve on-time performance and route reliability. By incorporating one (1) more vehicle into the schedule, delays can be absorbed with additional recovery time and adjusted running time, ensuring each trip starts on-time and remains on-time. Also, by coordinating schedules with Route 10 (Hwy 115-PPCC), on-time performance on Route 10 will also improve.
Implementation - Sunday, October 1, 2017

Three (3) public meetings were conducted in our service area to gather feedback and to help determine our final recommendation. The meetings were held at the following venues:

- Tuesday, July 25th 2017 9:30am to 10:30am @ Downtown Transit Terminal 127 E. Kiowa Street, Colorado Springs, CO 80903
- Wednesday, July 26th 2017 9:30am to 10:30am & 5pm to 6pm @ COS City Hall 107 N. Nevada Ave., Colorado Springs, CO 80903 - Room: Council Chambers

Members present: James Ramsey, Bonnie Johnson, Mark Hopewell, Doug Bursnall, Aubrey Day, Stephanie Surch – Attendance constitutes quorum -

Citizen comments:
  ATAC members, speaking as citizens: Mr Hopewell liked the changes on Cucharras & Cascade. Mr. Ramsey supports the use of sharrows.

Approval of minutes – Motion made by Ms. Johnson, seconded by Mr. Bursnall; unanimously approved.

City staffer Kate Brady from Traffic Engineering said that a draft of the master plan will be coming, that ATAC will be given an opportunity to comment on that, and that a future ATAC meeting (August or September) will serve as an open house for interested citizens to see how their suggestions have been incorporated.

ATAC member Aubrey Day led a discussion on the following topics, which had previously been suggested by ATAC members, for priorities in an ATAC workplan:
  • Wayfinding
  • Bike Master Plan
  • Bike Map
  • Bike Parking Ordinance
  • Infill Plan
  • Connectivity
  • Public Process
  • Complete streets
  • Evaluation
  • PlanCOS
  • Performance Criteria
  • Design Standards
  • Route Review

Members combined topics and voted on their preferred options. They plan to vote on a work plan in August and present to CTAB in September.

Respectfully submitted
Kate Brady
