

PURPOSE OF THE PROJECT

Improve Public Safety and Ride Quality By:

- Replacing all roadway pavement which is beyond its usable life (greater than 25 years old)
- Repairing multiple utility cuts and patches
- Correcting storm drain pipe failures that have produced sinkholes
- Eliminating potholes
- Repairing sidewalks where needed

Make Additional Improvements, Including:

- Addressing drainage problems
- Upgrading pedestrian ramps to meet Americans with Disabilities Act (ADA) standards
- Improving sidewalk connectivity
- Reducing median maintenance burden
- Removing excess pavement width to reduce needed maintenance
