Devon Support Rail. Folds against wall when not in use. Rail attaches to a plate that is fixed to the wall. Held up when not needed by a spring-loaded cam. 1" epoxy-coated steel tube with 1 1/4" x 5" backplate. Hardware not included. Recommend installation by a qualified professional. Maximum weight load 147 lbs.
AA20-02 Std - 30" long \$129.99
AA20-00 Short - 21 1/2" long \$129.99

Toilet Roll Holder. Wire holder fits up to a 1 1/4" diameter tube. (AA20-00 to AA20-26 on this page).
5574-76 \$39.99

Note: The maximum weight load for these products is dependent upon the correct choice of hardware for the mounting surface. For this reason we do not specify suitable hardware. We recommend installation by a qualified professional. Weight load is the amount of pressure the user puts on the support and can vary. It is not the users' actual weight.

Devon Deluxe Folding Support Rail. Improved spring mechanism! Support rail folds up against wall when not in use. Larger-diameter 1 1/4" rail provides a secure grip. Attaches to a plate that is fixed to the wall. Spring mechanism reduces effort required to lower and raise rail, and holds it securely out of the way when not needed. 30"-long rail is epoxy-coated steel tube. Hardware not included. Recommend installation by a qualified professional. Maximum weight load 279 lbs. Does not include toilet roll holder.
AA20-12 \$149.99

Devon Floor-Mounted Folding Rail. Support rail folds when not in use. Floor mounting allows versatility in positioning the rail. Features a clamp with large plastic knob that attaches it in the required position on the post. Spring mechanism reduces effort required to lower and raise rail, and holds it up securely out of the way when not needed. 44"-high post is welded to a 10" x 6" floor plate, which must be securely fixed to the floor. 30"-long rail is 1 1/4" epoxy-coated steel tube. Hardware not included. Recommend installation by a qualified professional. Maximum weight load 279 lbs.
AA20-26 \$239.99

Devon Rail with Folding Leg. Support rail folds up against wall when not in use. Leg increases strength and durability to lessen strain on wall. Rail height must be set before wall mounting unit. Height adjusts from 31" - 38 1/2". Rail is 30" long. Hardware not included. Recommend installation by a qualified professional. Maximum weight load 147 lbs.
AA20-18 \$199.99

600 lb. weight capacity

The Extend a Hand Grab Bar™ Pulling to stand is a better, safer option. When raised, this handy bar extends 12" from the wall to place within reach. Bar-locks automatically when raised. Can be left permanently in position, or lowered by pushing two release buttons. Should be installed by professional contractor. 600 lb. weight capacity. Latex free.

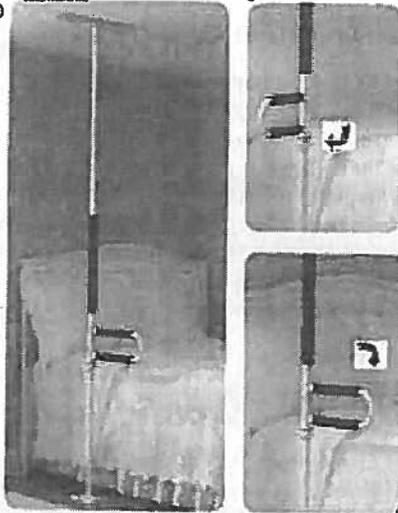

Stainless Steel 1 1/4" diameter		Powder-Coated 1 1/2" diameter

Bathing & Toileting

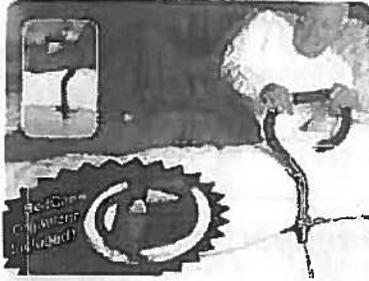

Extra assistance for easy transfers

SammonsPreston® Sammons Preston® Transfer Pole & Transfer Pole Swing Grip. Constructed of heavy gauge 1 1/4" epoxy-coated steel, this pole adjusts in height from 92" to 100". Optional Transfer Pole Swing Grip features a 20"L padded grip area; includes an extra loop handle that pivots around the pole in 3/4" increments and locks into place at each of the eight possible positions. The 14"L x 6"H swing grip gives extra assistance for transfers. Grip adjusts up to 39" from the floor. A rubber pad on the pole's end protects the ceiling. Requires no tools to install. 200-lb. weight capacity. Latex free

9267-85 Transfer Pole \$262.45
9267-86 Transfer Pole Swing Grip \$166.05

Aids independent movement

BedCane™. Heavy-gauge steel, wide handle with cushion grip provides support getting in and out of bed. 19" x 23" base goes under mattress and safety strap secures it to bed. Collapse to store. Includes an organizing pouch. Adjusts 19"H-22"H from base. Fits twin, full, queen and king size beds. 300-lb capacity. The LTC version has the same base and height adjustment, but does not come with the pouch. The shorter handle means there is no loop to get caught in.

8094 BedCane \$146.30
0815-70-639 NEW BedCane LTC \$140.50

Pull yourself up with ease

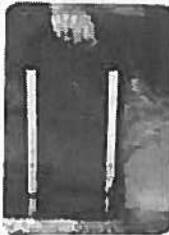

SammonsPreston® Sammons Preston® Bed Pull-Up. Ladder pull-up has four 12" rungs spaced for easy hand/arm placement so that client can pull himself up from bed. 85" long webbing fits around bed frame. Hook and loop wrap reinforces the buckle that attaches webbing to ladder. 200-lb weight capacity. Latex free

5130 \$30.15

Fits into suitcase or travel bag for easy transport

MTS® FREEDOM Grip® Adjustable Travel Handle. Made of tubular steel for strength and safety and is easy to assemble and use on the bed. Slide the base of the handle between the mattress and box spring and secure to the bed frame with the nylon strapping included. Fits into a suitcase or travel bag for easy transport. The foam cushioned grip provides extra comfort while the height is adjustable to accommodate thicker mattresses. The handle width is 8 7/8" (outer) and 7" (inner). Height adjusts 23"-26". The 29"L base has a width of 10 5/8" in front and goes to 27" at the back. Handle weighs only 6 lbs, yet has a weight capacity of 250 lbs.

5634-24 \$111.50

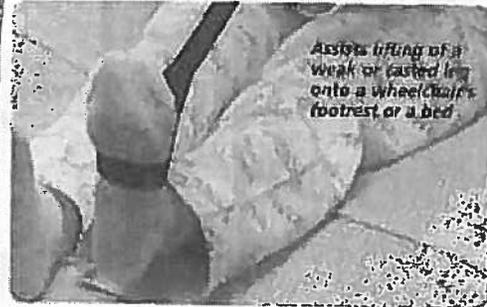

Have confidence getting up

M-Rail. With a sure, comfortable grip, the M-Rail assists entry and exit from bed. The ergonomic handrail reduces wrist strain and is covered with non-slip foam. No tools required for attachment. Fits single to king-size beds. 19"W x 16"H. Holds up to 250 lbs.

9269-29 \$144.00

Helps you raise and lower legs

SammonsPreston® Sammons Preston® Rigid Leg Lifter. Reinforced webbing around a rigid, yet adjustable, metal rod in the center and foot portion. Foot loop opening can be pre-bent to accommodate the width of a cast or foot. Hand loop is a flexible webbing for comfort. Lifter with Foot Grip (5531-86) has a flexible rubber foot grip to prevent foot from sliding out of foot loop.

Item No.	Description	Price
5531-86	40"L Leg Lifter with Foot Grip	\$20.90
0815-54-336	40"L Leg Lifter with Foot Grip (pkg of 5)	\$85.95
