

2 Building Permits:

The work described in these specifications is to be carried out in accordance with all applicable codes and ordinances. The contractor must pay for and obtain all required permits prior to the start of construction. Contractors and subcontractors are responsible for posting copies of the permits at the job-site and for scheduling all required inspections during the course of construction. Contractors or subcontractors who fail to obtain required permits, or call for required inspections, may be suspended from future bidding.

All drawings required to obtain permits must be included in the Contractor's proposal and must be submitted to the Housing Division for review and prior approval.

The Housing Development Division has the right to inspect the work at any time without advance notice.
