Class Specification – Database Administrator II

Summary Statement:	
<p>The purpose of this position is to manage the Microsoft SQL Server database administration and the architecture of the City consolidated SQL Server environment of the Police, Fire, and City departments. This is accomplished by managing and maintaining, including data recovery, the database software; virtualization, consolidation, and upgrade the database servers; and provide support for vendor applications.</p>	
DISTINGUISHING CHARACTERISTICS:	
<p>This is the full journey level class within the Database Administrator series. Employees within this class are distinguished from the (I level) by the performance of the full range of duties as assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from level I, or when filled from the outside, have prior experience.</p>	
Essential Functions	Note: Regular and predictable attendance is an essential function in the performance of this job.
Time % (All below must add to 100%)	Note: Time spent on each essential function will vary based on operational needs and is only intended to be an approximation over the course of a full year.
70%	Conducts day-to-day administration including database maintenance and optimization; assists application developers in the creation of new databases; and SQL Server related tasks as needed.
10%	Plans SQL Server installation; works and coordinates with users, vendors, other teams, and project managers for preparation of resources, installation, testing, and project acceptance; and composes and submits change requests, follow-up, and implements database part of the projects.
20%	Provides vendor application support to users for any issues they may have and work with vendors.
