8:45AM: Review of Meadows Park Tour and Edible Landscapes next steps

*Board Discussion*

- Many board members attended the tour and were impressed with the idea for the space and the work Meadows Park has done to engage the community with learning about growing and preparing healthy food.
- Proposed idea to move forward with writing policy brief or letter of support for gardens in parks,
- Potential for the board to write several policy support briefs on other topics such as edible landscapes, food waste at city facilities, food procurement at city facilities, farmer's market oversight
- The board will start with policy brief for edible landscapes and research tasks were assigned to board members. At next meeting we will update on our findings and draft the brief.
