CALCULATED "ON SITE" FIRE FLOW: [REDACTED]

CITY WATER MAP NUMBER: [REDACTED]

For water flow calculations/modeling in the City of Colorado Springs –
<https://www.csu.org/CSUDocuments/requestfireflowreport.pdf>

ATTENTION: The Colorado Springs Utilities attempts to get all fire flow calculations completed as soon as possible, but you must understand it may take approximately 2-3 working days for the calculations to be processed.

¹ The gross square footage must include all floors, basement, garage, and covered decks

² A 50% water flow credit will be allowed for all fire sprinkled structures.

³ See Water Supplies for Commercial & Residential Fire Protection Packet.
