****FREE****

If you take both the Stormwater Management and Erosion Control (GEC) class and the Developing and Implementing Stormwater Plans (SWMP) training class, then you may attend the Temporary Control Measures (TCM) Field Academy class at no charge!

DEVELOPING & IMPLEMENTING STORMWATER PLANS TRAINING CLASS

**April 28, 2021
or
October 6, 2021**

Course Description

The development and implementation of Stormwater Management Plans (SWMP) requires a carefully planned approach accompanied by close follow up.

This training program is designed to provide information about how to prepare and implement these plans to help comply with the requirements of the CDPS permit as issued by the Colorado Department of Public Health and Environment (CDPHE), Water Quality Control Division (WQCD). This program is designed and intended to provide support, training and guidance for the Erosion Control Supervisor or for those developing, implementing and updating SWMPs.

Who should go?

This class is intended for those developing, implementing and updating Stormwater Management Plans (SWMPs) that are required by the CDPHE. There is no formal prerequisite for this class. However, it is strongly recommended that participants have knowledge of the construction stormwater permit and temporary control measures to for erosion and sedimentation during construction activities.

LEARNING OBJECTIVES

UPON COMPLETION OF THE PROGRAM, PARTICIPANTS WILL BE ABLE TO:

- DESCRIBE THE CONTENTS OF A SWMP
- SELECT TEMPORARY CONTROL MEASURES (TCMs) FOR THE CONTROL OF EROSION AND SEDIMENTATION
- DESCRIBE THE REQUIREMENTS FOR AMENDMENTS TO THE SWMP
- DESCRIBE THE PROCEDURES FOR DEVELOPMENT, REVISION AND IMPLEMENTATION OF THE SWMP
- DESCRIBE PROCEDURES FOR CONDUCTING ROUTINE INSPECTIONS OF TCMs

OTHER CLASSES

April 27-Stormwater Management and Erosion Control During Construction (GEC)

June 2-TCM (BMP) Academy

July 7-TCM (BMP) Academy

September 1-TCM (BMP) Academy

October 5-Stormwater Management and Erosion Control During Construction (GEC)
