Transit Stops

***Inspection Date: 2019
Inspector: Mountain Metropolitan
Transit Staff***

Prepared By

OLYMPIC CITY USA

(719) 385 - 5175

<https://coloradosprings.gov/>

TO: Mountain Metropolitan Transit

FROM: Robert L. Hernandez

DATE: January 15, 2020

SUBJECT: Bus Stop Self-Evaluations

1. In 2019, Mountain Metropolitan Transit staff evaluated all bus stops. These evaluations were in accordance with the 2013 Public Right Of Way Accessibility Guidelines (PROWAG).

2. Bus Stops were scored with a rating of 1 to 5, as defined below:

Rating 1: The bus stop is not accessible or compliant. Typically this type of bus stop only has a post with the bus stop information.

Rating 2: The bus stop is not accessible or compliant. Typically this type of bus stop has a post and a bench. Those bus stops rated as a 2 currently have sufficient public right of way in place and are our first priority to correct.

Rating 3: The bus stop is minimally accessible with technical defects. Typically this type of bus stop has a post, a 5'-0" by 8'-0" concrete pad, sidewalk, and a bench or shelter.

Rating 4: The bus stop is accessible with a post, a concrete pad, and a bench.

Rating 5: The bus stop is accessible with a post, a concrete pad, and a shelter.

3. Corrective actions to findings were/will be submitted for corrective action through the city maintenance work request system and Transition Plan. Note: Recommended corrections in some cases where needed will be modified when appropriate. Corrections are developed in consideration of the "Program Access" provisions of Title II, where applicable.

4. A copy of this report will be maintained in the Office of Accessibility.

Atch 1. City of Colorado Springs, ADA Self-Evaluation Report

Sincerely,

A handwritten signature in blue ink that reads "Robert Hernandez". The signature is written in a cursive style and is positioned above the printed name.

Robert Hernandez

Bus Stops

Finding: 1

Bus Stops rated as a 1 are not accessible. This type of bus stop has a post with signage designating the route information.

Due to limited right-of-way width, this type of bus stop typically is not very large due to limited right-of-way availability and thus do not have a shelter or bench. These stops are not wide enough to deploy the bus ramp.

At the time of this evaluation, there were 116 bus stops rated as 1.

2011 PROWAG Section R308.1

Transit stops shall comply with R308.1 (Transit Stops).

Citation:

2011 PROWAG Section: R308.1

As Built:

These bus stops are rated as a 1.

Recommendation:

Make these bus stops accessible to the maximum extent feasible through redesigning or acquiring right of way. Consider relocating stops to areas with wider right-of-way.

Bus Stops

Finding: 2

Bus Stops rated as a 2 are not accessible. This type of bus stop has a post with signage designating the route information and a bench.

Due to limited right-of-way width or ridership numbers, this type of bus stop typically is not very large and thus do not have a shelter. This type of stop typically is large enough to deploy the bus ramp.

At the time of this evaluation there were 178 bus stops rated as 2. Fixing these stops is a priority as we have enough right of way to make them accessible.

2011 PROWAG Section R308.1

Transit stops shall comply with R308.1 (Transit Stops).

Citation:

2011 PROWAG Section: R308.1

As Built:

Bus Stops rated as a 2 are not accessible.

Recommendation:

Make these stops accessible to the maximum extent feasible. Install pavement at the bus stop and to the adjacent sidewalk.

Bus Stops

Finding: 3

Bus Stops rated as a 3 are generally accessible. This type of bus stop has a post with signage designating the route information, a bench and may have a shelter. The surface is paved, but the slopes may be greater than 2%.

At the time of this evaluation, there were 339 bus stops rated as 3.

2011 PROWAG Section R308.1

Transit stops shall comply with R308.1 (Transit Stops).

Citation:

2011 PROWAG Section: R308.1

As Built:

Bus Stops rated as a 3 are generally accessible.

Recommendation:

Remove and replace concrete to provide maximum 2% slopes in all directions.
