**Class Specification – IT Project Manager I**

<b>Summary Statement:</b>	
<p>The purpose of this position is to be the primary IT liaison for the implementation of IT Projects or IT activities within larger City projects. The IT Project Manager will work closely with Business Relationship Manager (BRM) to ensure a valid transition from solution development into implementation. During implementation, the IT Project Manager will be responsible to build upon and strengthen a collaborative and trusting relationship with the IT customers, ensuring IT solutions are implemented on or before agreed targets. The IT Project Manager provides a consistent communication channel as customer requests are transitioned from solutions, to released and implemented services. Ensure that our customers have a clear and unambiguous expectation of the major milestones and decision gates on the project timeline. The role involves a significant amount of articulate communication, project knowledge, and facilitation with all stakeholders.</p>	
<b>Essential Functions</b>	Note: Regular and predictable attendance is an essential function in the performance of this job.
<b>Time %</b> (All below must add to 100%)	Note: Time spent on each essential function will vary based on operational needs and is only intended to be an approximation over the course of a full year.
40%	Manages project deliverables from solution transition to release and implementation. Facilitates the definition of project charter, scope, goals, and deliverables. Manages resources assigned to projects in regards to project efforts and provides a single point of contact for project assignments. Works closely with the Business Relationship Manager (BRM) to understand negotiated, documented, and agreed request deliverables.
20%	Creates project plans and project schedules. Monitors, plans, and controls/mitigates project change and risk. Facilitates communication between stakeholders (sponsor, consumer, technical staff, vendors, and IT staff). Facilitates and positively motivates project teams to solidify a sense of accountability for on-time, within budget project delivery.
20%	Acts as change agent in ensuring the IT delivers excellent customer service; concisely and effectively communicates progress, status, and issues to the business and IT management. Shows initiative and acts independently to resolve problems, manages multiple priorities, and follows through on projects/tasks to completion.
