Project Issues

One of the first steps in the community involvement process was to identify the key issues of interest about the project. Issues were identified through community interviews and the first Community Meeting on October 22, 2013. The Project Issues were used to guide development of the Design Concepts presented at the December 12, 2013 Community Meeting

Aesthetics

Community Process

Construction

Cultural History / Resources

Design

Flooding / Drainage

Funding

Garden of the Gods

History of the Area

Maintenance

Natural Feel

Neighborhood Character

Rock Ledge Ranch

Safety

Timeline

Tourist Economy

Trails

Traffic / Streets / Bridges

Views

Design Criteria

Criteria for assessing possible solutions were drawn from the Project Issues. The Criteria were affirmed at the Community Meeting on December 12, 2013. The Project Team applied the Criteria in deciding on the Recommended Plan.

Public Safety

Flood Risk Mitigation

Aesthetics

Neighborhood

Cost / Funding

Garden of the Gods and Rock Ledge Ranch Historic Site

Environment

Pedestrian / Bike Access & Trails

Community Support
