Administrative Order 2020-02

In March 2020 the Mayor signed Administrative Regulation 2020-02 that required accessibility changes to online technology by June 2022. The order requires the establishment of an Accessibility Prioritization Committee. The regulation incorporates all forms of digital technology.

The City has completed its assessment of public facing technology and developed a project plan to remove potential barriers online. The City's current project plan for online

accessibility incorporates continued assessment, remediation, training, enforcement, and coordination.
