Consequently, Contractor represents that Contractor has selected and intends to employ or assign the key personnel and consultants identified in Appendix ___ - "Identification of Personnel, Subcontractors and Task Responsibility", attached hereto for the Project assignments and areas of responsibility stated therein. Within 10 days of execution of this Contract, City shall have the right to object in writing to employment on the Project of any such key person, consultant or assignment of principal responsibility, in which case Contractor will employ alternate personnel for such function or reassign such responsibility to another to whom City has no reasonable objection. Thereafter, Contractor shall not assign or reassign Project work to any person to whom City has reasonable objection.

The key personnel listed in Appendix ___ - "Identification of Personnel, Subcontractors and Task Responsibility" will be the individuals used in the performance of the work unless objected to by the City as provided in the immediately preceding paragraph. If any of the listed key personnel leave employment or are otherwise not utilized in the performance of the work, approval to substitute must be obtained by the Contractor from the City's delegated Project Manager. Any substitute shall have the same or a higher standard of qualifications that the key personnel possessed at the time of Contract award.

The schedule shall provide for performance of the work in a timely manner so as to not delay City's time table for achievement of interim tasks and final completion of Project work, provided however, the Contractor will not be responsible for delays beyond its control.

N. Before undertaking any work which Contractor considers beyond or in addition to the scope of work and services which Contractor has contractually agreed to
perform under the terms of this Contract, Contractor shall advise City in writing (i) that Contractor considers the work beyond the scope of this Contract, (ii) the reasons the Contractor believes the out of scope or additional work should be performed, and (iii) a reasonable estimate of the cost of such work. O. Design within Funding Limitation: The Contractor shall accomplish the design services required under this Contract so as to permit the award of a construction contract at a price that does not exceed the estimated construction contract price plus ten percent (10%) as set forth below.

1. When lowest responsive and responsible bids or proposals for the construction contract are received that exceed the estimated price, the Contractor shall perform such redesign and other services as are necessary to permit contract award within the funding limitation. These additional services shall be performed at no increase in the price of this Contract. However, the Contractor shall not be required to perform such additional services without additional compensation if the unfavorable bids or proposals are the result of conditions beyond its reasonable control i.e. City directed scope changes, unknown design problems are encountered, or a volatile construction market at the time of bid as compared to the construction market at the date this Contract is executed.

2. The Contractor must promptly advise the Project Manager if it finds that the Project being designed will exceed or is likely to exceed the funding limitations and it is unable to design the Project within the funding limitation.

3. The estimated construction contract price for the Project described in this Contract is $XXXXXXXX (plus 10%).

P. The City's review, approval of, acceptance of, or payment for the services required under this Contract shall not be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and the Contractor shall be and remain liable to the City for any and all damages to the City caused by the Contractor's negligent performance of any of the services furnished under this Contract.

Q. The rights and remedies of the City provided for under this Contract are in addition to any other rights and remedies provided by law.

R. If the Contractor is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.
S. The Contractor shall be obligated to provide services as an expert witness in connection with any public hearings or legal "proceedings" for a period of five (5) years following the completion of the Project. The Contractor shall be reimbursed for such service unless the basic issue of such hearing or "proceeding" concerns sufficiency of the Contractor services as outlined in this Contract. The Contractor hereby agrees to relieve the City from all claims and liability due to the Contractor's negligence.

T. The design of architectural, structural, mechanical, electrical, civil, or other engineering features of the work to be performed under this Contract shall be accomplished or reviewed and approved by architects or engineers registered in the state of Colorado to practice in the professional field involved.

6. WORK OVERSIGHT

B. If any of the work or services being performed does not conform with Contract requirements, the City may require the Contractor to perform the work or services again in conformity with Contract requirements, at no increase in Contract amount. When defects in work or services cannot be corrected by re-performance, the City may (1) require the Contractor to take necessary action to ensure that future performance conforms to Contract requirements and (2) reduce the Contract price to reflect the reduced value of the work or services performed.

C. If the Contractor fails to promptly perform the defective work or services again or to take the necessary action to ensure future performance is in conformity with Contract requirements, the City may (1) by Contract or otherwise, perform the services and charge to the Contractor any cost incurred by the City that is directly related to the performance of such work or service or (2) terminate the Contract for breach of contract.

7. SUBCONTRACTORS, ASSOCIATES, AND OTHER CONTRACTORS

A. Any subcontractor, outside associates, or other contractors used by the Contractor in connection with Contractor’s work under this Contract shall be limited to individuals or firms that are specifically identified by the Contractor in the Contractor’s proposal and agreed to by the City. The Contractor shall obtain the City’s Project Manager’s written consent before making any substitution of these subcontractors, associates, or other contractors.

B. The Contractor shall include a flow down clause in all of its subcontracts, agreements with outside associates, and agreements with other contractors.
The flow down clause shall cause all of the terms and conditions of this Contract, including all of the applicable parts of the Contract Documents, to be incorporated into all subcontracts, agreements with outside associates, and agreements with other contractors. The flow down clause shall provide clearly that there is no privity of contract between the City and the Contractor’s subcontractors, outside associates, and other contractors.

8. KEY PERSONNEL

The key personnel listed in the proposal and/or below will be the individuals used in the performance of the work. If any of the listed key personnel leave employment or are otherwise not utilized in the performance of the work, approval to substitute must be obtained by the Contractor from the City’s Project Manager. Any substitute shall have, at a minimum, the same or a higher standard of qualifications that the key personnel possessed at the time of Contract award.

9. START AND CONTINUANCE OF WORK

It is further agreed that the Contractor will start work promptly and continue to work diligently until this Contract is completed.

10. APPROPRIATION OF FUNDS

This Contract is expressly made subject to the limitations of the Colorado Constitution and Section 7-60 of the Charter of the City of Colorado Springs. Nothing herein shall constitute, nor be deemed to constitute, the creation of a debt or multi-year fiscal obligation or an obligation of future appropriations by the City Council of Colorado Springs, contrary to Article X, § 20, Colo. Const., or any other constitutional, statutory, or charter debt limitation. Notwithstanding any other provision of this Contract, with respect to any financial obligation of the City which may arise under this Agreement in any fiscal year after the year of execution, in the event the budget or other means of appropriation for any such year fails to provide funds in sufficient amounts to discharge such obligation, such failure (i) shall act to terminate this Contract at such time as the then-existing and available appropriations are depleted, and (ii) neither such failure nor termination shall constitute a default or breach of this Contract, including any sub-agreement, attachment, schedule, or exhibit thereto, by the City. As used herein, the term “appropriation” shall mean and include the due adoption of an appropriation ordinance and budget and the approval of a Budget Detail Report (Resource Allocations) which contains an allocation of sufficient funds for the performance of fiscal obligations arising under this Contract.

11. CHANGES

The Contractor and the City agree and acknowledge as a part of this Contract that no change order or other form or order or directive may be issued by the City which requires additional compensable work to be performed, which work causes the
aggregate amount payable under the Contract to exceed the amount appropriated for this Contract as listed above, unless the Contractor has been given a written assurance by the City that lawful appropriations to cover the costs of the additional work have been made or unless such work is covered under a remedy-granting provision of this Contract. The Contractor and the City further agree and acknowledge as a part of this Contract that no change order or other form or order or directive which requires additional compensable work to be performed under this Contract shall be issued by the City unless funds are available to pay such additional costs, and, regardless of any remedy-granting provision included within this Contract, the Contractor shall not be entitled to any additional compensation for any change which increases or decreases the Contract completion date, or for any additional compensable work performed under this Contract, and expressly waives any rights to additional compensation, whether by law or equity, unless, prior to commencing the additional work, the Contractor is given a written change order describing the change in Contract completion date or the additional compensable work to be performed, and setting forth the amount of compensation to be paid, and such change order is signed by the authorized City representative, as defined below. The amount of compensation to be paid, if any, shall be deemed to cover any and all additional, direct, indirect or other cost or expense or profit of the Contractor whatsoever. It is the Contractor's sole responsibility to know, determine, and ascertain the authority of the City representative signing any change order under this Contract.

No change, amendment, or modification to this Contract shall be valid unless duly approved and issued in writing by the City of Colorado Springs Procurement Services Division. The City shall not be liable for any costs incurred by the Contractor resulting from work performed for changes not issued in writing by the City of Colorado Springs Procurement Services Division.

The following personnel are authorized to sign changes, amendments, or modifications to this Contract.

The Project Manager: Changes up to $14,999.99

12. ASSIGNMENT

No assignment or transfer by the Contractor of this Contract or any part thereof or of the funds to be received thereunder by the Contractor will be recognized unless such assignment has had the prior written approval of the City and the surety has been given due notice of such assignment. Such written approval by the City shall not relieve the Contractor of the obligations under the terms of this Contract. EXHIBIT 5  STATEMENT OF WORK

5.1  EXECUTIVE SUMMARY

In November 2019, Colorado Springs, Colorado voters passed the extension of Ballot Measure 2C supporting the continuation of a special tax for road and street repairs. The extension of the measure decreased the tax rate from 0.62% (from the initial program) to 0.57% to generate $50 million of additional revenue per year for 5 years, anticipating a total road and street improvement investment of $250 million. This temporary sales/use tax will terminate on 12/31/2025.

This Scope of Work and associated Cost Proposal is for Construction Management, Inspection Services and Materials Testing for roadway related concrete, drainage, and asphalt overlay projects throughout the City of Colorado Springs associated with the 2C Ballot Measure extension. These services will be provided for four distinct programs as follows:

- Pre-Overlay Concrete Program
- Pre-Overlay Pipe Program
- Resurfacing Program (Milling/Asphalt Paving)
- Right of Way Inspection

“CONTRACTOR” will provide an appropriate number of staff to adequately support pre-overlay concrete, pre-overlay pipe, milling and asphalt paving, and Right-of-Way teams commensurate with program needs. These teams will serve as an extension of the City’s staff and shall determine, in general, the scope of work the construction contractor will perform and inspect the contractors work during and after construction, in accordance with the requirements of the applicable Contract Documents, to guard the City against defects and deficiencies in the work.

5.6 ASSUMPTIONS AND EXPLANATION

Since construction inspection contracts are heavily reliant upon contractor schedules, weather, and production with tasks overlapping throughout each day, the general approach to estimating a fee is based on a number of full-time or part-time employees on the project through the period of performance as opposed to the duration of each task. The following assumptions help to define the fee.

A. Inspectors assigned to the Asphalt Program for both milling and asphalt paving will only work between the months inclusive of April and October with an average of 44 hours/week (10% overtime)

B. Inspectors assigned to the Pre-Overlay Programs for Concrete and Pipe (Soil) will work year-round with an average of 44 hours/week (10% overtime)

C. Inspectors assigned to Right-of-Way inspection will work year-round with an average of 44 hours/week (10% overtime)

D. All materials testing staff are assumed to work 40 hours/week maximum per week

A supplement to this contract will be necessary in the event the level of effort required increases beyond that described, including but not limited to increased scope, extended construction duration, and/or additional construction shifts beyond those described within this scope.
This scope is based on the assumption that very minimal night work will be staffed by Inspection and Materials Testing staff. For this scope of work, night work would be any work between the hours of 6:00 p.m. and 6:00 a.m. Night work usually results in double shifts of staff to properly cover the work that has not been accounted for in this scope and cost proposal.

following questions. Explain how the key personnel were related to the projects cited as relevant past performance.

1. Does the Offeror provide complete resumes, including education, experience, background information, accomplishments, and other pertinent information?
2. Does the Offeror provide resumes for all key personnel, as required by the RFP?
3. Do the resumes demonstrate adequate professional, technical, and management levels to accomplish the work effectively and efficiently?
4. Do the key personnel possess all requisite certifications, licenses, experience, etc.?

COMMENTS:

Sum of Ratings in Technical Area (Add numbers in Section 1.A. and 1.B):

2. PRICE AREA

In the Price Area, the Offeror should provide a detailed breakdown of the price for each year of performance. The price must be fully loaded/all-inclusive and include unit cost for material, labor, other direct costs (e.g. travel), indirect costs (i.e. overhead and general and administrative costs), and profit/fee. Offers must include sufficient detail to allow insight into the fairness and reasonableness of the price. If the contract type will be T&M, labor categories, labor rates, separated profit, and estimated material costs must be included in detail.

In addition, although price may not be the most important factor, it is still very important to the City of Colorado Springs. The Offeror’s pricing must be competitive as compared to the budget amount, market pricing in the industry, and the pricing of the other Offerors.

Consider the following questions:

1. How does the price compare to the industry competition?
2. If low, is it unrealistically low?
3. If high, is there demonstrated added value for the additional cost?

COMMENTS:

Total Price/Cost Area (Insert number from Section 2 evaluation above):

3. PROPOSAL PRESENTATION
Presentation is an important factor. Offerors should provide a highly professional product, which is complete, accurate, easily understood, and effectively presented.
