See Section II – Item 2.6

3.1.3 PROPOSAL PRESENTATION

See Section II – Item 2.7

3.1.4 EXCEPTIONS AND INSURANCE

3.2 RANKING

A. The order of ranking or importance in the evaluation shall be as follows:

First: Price

Second: Consultant Experience/Qualifications/Management Area

Third: Project Scope and Approach

Exceptions and Insurance areas will be scored as pass or fail. Failure in this area may result in disqualification from award.

The following apply to the Exceptions and Insurance Areas

Exceptions and insurance will be evaluated as pass for fail. Whether or not exceptions to City terms and conditions are acceptable or unacceptable will be determined at the sole discretion of the City. Any exceptions deemed unacceptable may result in a “fail” rating. The Insurance Area will be rated as “pass”, unless the Offeror fails to meet any stated insurance requirement provided in this RFP. If the Offeror fails to meet any stated insurance requirement provided in this RFP, the Offeror will be rated “fail” in the Insurance Area. A rating of “fail” in either of these areas may result in disqualification from award.

B. Area Scoring

The score for each area will be determined by multiplying the sum of the criteria

in each area by the area evaluation factor. The area evaluation factors are as follows:

Price: .40

Consultant Experience /Qualifications/Management Area: .35

Project Scope and Approach: .25

C. Final/Overall Scoring

The final proposal score will be determined by adding the area scoring. The sum of the area scores will be the final/overall score.

3.3 SELECTION COMMITTEE

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

3.4 AWARD OF CONTRACT

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City

may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its obligations. The successful Offeror may be expected to attend regular meetings as required by the City to assist in the preparation for startup.

The Contractor certifies in accord with Section 8-17.5-102(1) C.R.S. that, on the date the Contractor signs this Contract, the Contractor does not knowingly employ or Contract with an illegal alien who will perform work under this Contract and that the Contractor shall participate in the e-verify program or Colorado Department of Labor and Employment program in order to confirm the employment eligibility of all employees who are newly hired for employment or to perform work under this Contract. The Contractor is expressly prohibited from using the e-verify program or Colorado Department of Labor and Employment program procedures to undertake pre-employment screening of job applicants while this Contract and any services under this Contract are being performed. If the Contractor obtains actual knowledge that a subcontractor performing work under this Contract for services knowingly employs or

contracts with an illegal alien, the Contractor shall notify the subcontractor and the City within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien, and terminate the subcontract with the subcontractor if within three days of receiving the notice the subcontractor does not stop employing or contracting with the illegal alien; except that the Contractor shall not terminate the Contract with the subcontractor if during the three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien. The Contractor shall comply with any request by the City, federal government, or the Colorado Department of Labor and Employment made in the course of an investigation. If the Contractor violates or fails to comply with any provision of C.R.S. 8-17.5-101 et seq, the City may terminate this Contract for breach of contract. If this Contract is so terminated, the Contractor shall be liable for any actual and consequential damages to the City.

25. COMPLIANCE WITH IMMIGRATION REFORM AND CONTROL ACT OF 1986

Contractor certifies that Contractor has complied with the United States Immigration Reform and Control Act of 1986. All persons employed by Contractor for performance of this Contract have completed and signed Form I-9 verifying their identities and authorization for employment.

26. LABOR

The Contractor shall employ only competent and skilled workmen and foremen in the conduct of work on this Contract. The Contractor shall at all times enforce strict discipline and good order among Contractor's employees. The Project Manager shall have the authority to order the removal from the work of any person, including Contractor's or any subcontractor's employees, who refuses or neglects to observe any of the provisions of these Plans or Specifications, or who is incompetent, abusive, threatening, or disorderly in conduct and any such person shall not again be employed on the Project.

In no event shall the City be responsible for overtime pay.

27. GRATUITIES

- A. This Contract may be terminated if the Mayor, the Mayor's designee, and/or the Procurement Services Manager determine, in their sole discretion, that the Contractor or any officer, employee, agent, or other representative whatsoever, of the Contractor offered or gave a gift or hospitality to a City officer, employee, agent or Contractor for the purpose of influencing any decision to grant a City contract or to obtain favorable treatment under any City contract.
- B. The terms "hospitality" and "gift" include, but are not limited to, any payment, subscription, advance, forbearance, acceptance, rendering or deposit of money,

services, or anything of value given or offered, including but not limited to food, lodging, transportation, recreation or entertainment, token or award.

- C. Contract termination under this provision shall constitute a breach of contract by the Contractor, and the Contractor shall be liable to the City for all costs of reletting the contract or completion of the project. Further, if the Contractor is terminated under this provision, or violates this provision but is not terminated, the Contractor shall be subject to debarment under the City's Procurement Regulations. - A. In accord with section 24-34-402, C.R.S., the Contractor will not discriminate against any employee or applicant for employment because of disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry. But, with regard to a disability, it is not a discriminatory or an unfair employment practice for an employer to take into consideration disability if there is no reasonable accommodation that the employer can make with regard to the disability, the disability actually disqualifies the person from the job, and the disability has a significant impact on the job. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry. Such actions shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training; including apprenticeship.
- B. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.
- C. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to disability, race, creed, color, sexual orientation, religion, age, national origin, or ancestry.

 - iii. If, within thirty (30) calendar days after such meeting, the Parties have not succeeded in negotiating a resolution of the dispute, they agree to submit the dispute to non-binding mediation and to bear equally the costs of the mediation.

 - vi. Until final resolution of any dispute hereunder, the Contractor shall diligently proceed with the performance of this Contract as directed by the City. For purposes of this Contract, termination for convenience shall not be deemed a dispute. The City of Colorado Springs and the Contractor

agree to notify each other in a timely manner of any claim, dispute, or cause of action arising from or related to this Contract, and to negotiate in good faith to resolve any such claim, dispute, or cause of action. To the extent that such negotiations fail, the City of Colorado Springs and the Contractor agree that any lawsuit or cause of action that arises from or is related to this Contract shall be filed with and litigated only by the Colorado District Court for El Paso County, CO.

EXHIBIT 5 STATEMENT OF WORK FOR AMTRAK SOUTHWEST CHIEF & FRONT RANGE PASSENGER RAIL STATION LOCATION STUDY

OVERVIEW

The City of Colorado Springs' Transit Services Division Mountain Metropolitan Transit (Transit or MMT) is conducting a rail station location study to identify suitable rail station sites that can accommodate future Amtrak Southwest Chief and Front Range Passenger Rail service. A consultant team will be selected, and will have knowledge and experience in similar efforts. It is intended that this study will primarily satisfy the station requirements, standards, and specifications to achieve Amtrak Southwest Chief rail service implementation in Colorado Springs, but not preclude future Front Range Passenger Rail (FRPR) service. The consultant is encouraged to make recommendations on the function or format of any element of this project.

PURPOSE

Recent efforts at the State level through the **Southwest Chief & Front Range Passenger Rail Commission** to bring Amtrak rail service from La Junta to Pueblo and Colorado Springs as well as establish rail service along the Front Range, recommend that a rail station location study be conducted to identify suitable and feasible locations for a rail station within the existing mainline freight railroad right-of-way adjacent to the I-25 corridor in Colorado Springs.

The completion of this station location study in a timely manner will ensure that a rail station in Colorado Springs is identified and included in continued rail planning efforts to bring passenger rail to our region.

PROJECT SCHEDULE

The project shall be initiated upon issuance of a Notice to Proceed. Performing this analysis is expected to take approximately six (6) to nine (9) months to complete, and can be negotiated as part of the final contract.

PROJECT OBJECTIVES

- Conduct an analysis to identify suitable locations (up to three) for a rail station within the existing mainline freight railroad right-of-way adjacent to the I-25 corridor in Colorado Springs.
- Evaluate preliminary railroad operational analysis for the through-car Amtrak Southwest Chief service as it relates to track improvements along the mainline freight railroad corridor in Colorado Springs.
- Identify station facility amenities and other Amtrak and future FRPR requirements and design standards related to passenger station design.
- Evaluate land ownership, zoning, and other station area opportunities and issues.
- Evaluate potential future service and operational characteristics for Front Range Passenger Rail service.
- Present a list of recommendations and steps necessary to achieve Amtrak Southwest Chief service implementation in Colorado Springs that does not preclude future Front Range Passenger Rail service connecting all of Colorado's Front Range communities from Trinidad to Fort Collins.

STUDY TASKS

(Order of Tasks can be revised based on schedule)

1. PROJECT MANAGEMENT & ORGANIZATION / PUBLIC INVOLVEMENT / AGENCY COORDINATION

Project Management & Organization

The consultant will conduct a kickoff meeting, to include the project team, stakeholders, and other staff members as needed to set the direction, vision, and purpose of the project. The schedule of key milestones, working structure, and team meeting schedules will be established at this meeting. The consultant will coordinate tasks among the MMT project manager and project team to ensure concerted efforts and efficient use of available information, including sharing technical analyses, data collection results, and public involvement activities. The consultant can develop a Project Management Plan (PMP) to assist with tracking the project schedule and budget. The PMP can include the project scope, deliverables, schedule, and the approach to manage quality and document control for the project.

Public Involvement

The project management structure would likely be two-tiered to include stakeholder involvement: Tier 1 could be composed of MMT and key City staff and consist of biweekly team coordination calls; Tier 2 could be a stakeholder committee that includes MMT staff and key stakeholder representatives from the City (Planning, Public Works, Economic Development, etc.), Colorado DOT, Pikes Peak Area Council of Governments (PPACG), and other interested parties to be determined.

This project should include two public meetings: 1) an initial meeting to present an overall project summary, describe the study's goals, purpose and need, and provide a description of work tasks to stakeholders, and 2) follow-up meeting to present draft

findings and presentation of preliminary recommendations. Stakeholder involvement will also include presentations (two) to working sessions of the Colorado Springs City Council and briefings to the PPACG Board and Transportation and Community Advisory Committees, the Pikes Peak Rural Transportation Authority Board and Citizens Advisory Committee, and the Colorado Springs Citizens Transportation Advisory Board. Many of these briefings can be done by the MMT project manager or other staff.

The consultant will use a comprehensive and documented approach to obtain input from, and provide information to, the public, stakeholders, and other interested parties to better understand and identify needs.

Agency Coordination

Consultant may coordinate with and obtain input or guidance from federal, state, regional, and municipal agencies as necessary. With direction from the project team, the consultant will prepare materials for presentation to various agencies and committees that require updates at key milestones.

Deliverables:

Project Management Plan

Site selection kickoff meeting

Public meetings (two)

Summary notes from meetings

Informational Presentations:

- Colorado Springs City Council (two)
- PPACG Board and Transportation and Community Advisory Committees (TAC & CAC)
- PPRTA Board and Citizens Advisory Committee
- Colorado Springs Citizens Transportation Advisory Board

2. DATA COLLECTION, ANALYSES, AND MAPPING

Data Collection

The consultant will confirm or recommend data sets to support the study, and coordinate with the project team to determine what additional research must be completed. The consultant will work with the project team to identify and approve methodologies for gathering data.

Data Analysis and Mapping

The consultant will analyze and map data for use in the development of the analysis and for various stakeholder presentations.

3. STATION LOCATION ALTERNATIVES EVALUATION

Accommodate Current and Future Needs

Rail station site identification needs to address the current/short-term rail station location need for Amtrak Southwest Chief through-car service, as well as longer-term Front Range Passenger Rail station needs.

The project study team will evaluate potential station sites within the study area. To identify potential sites, criteria for site selection will need to be established. The criteria will be developed based on the factors that are critical for selecting a viable station area site and meet the project's objectives. The project study team will analyze the existing freight railroad right-of-way within the Colorado Springs area for sites meeting most, or all, of the established criteria and create an initial site matrix identifying potential sites. The identified sites will be vetted with the Tier 1 and 2 stakeholder groups. This effort will provide a shortlist of no more than three sites that will be evaluated in more detail as proposed below.

The goal of Task 3 is to select three finalist sites that will be vetted further in Task 6 for selection of a single preferred alternative. In making recommendations as to a preferred site for the future rail station, the project study team will evaluate: size of site, potential transit interface, passenger rail rider accessibility, street access, parking, fit within the community and neighborhood, planned uses for the adjacent areas, development, redevelopment, and adaptive reuse opportunities, pedestrian and bicycle access; impacts on railroad operations, proximity to other transportation modes, and other relevant circumstances. The three potential station sites will be evaluated in detail through a second matrix process and will be ranked by the project team with input from the stakeholders groups. The deliverable from this task will include the selection of two finalist site alternatives.

Deliverables:

Meetings with Stakeholders

Additional site selection matrix

Preferred site selection matrix

Mapping of potential sites/facilities

Technical memorandum describing the process utilized in vetting the various site alternatives

Technical memorandum describing the two finalist alternatives; transportation (rail, transit, parking, access), and land use

4. RAILROAD OPERATIONS ANALYSIS

The project team will coordinate with the Burlington Northern Santa Fe Railway (BNSF), Amtrak, and the Union Pacific Railroad to identify any effects (positive or negative) the proposed Amtrak service will have on existing or projected passenger or freight rail service operating in the Colorado Springs area. The preliminary service plan related to the Amtrak Southwest Chief through-car service connecting Colorado Springs, Pueblo, and La Junta will be described as part of this task. The consultant will prepare a description of the existing track conditions. Included as part of this task is the incorporation of projected ridership data from Amtrak for the proposed service. These data will also inform the size and design requirements for the actual station facility (see Task 7) based on projected usage by passenger rail customers utilizing the through-car service, as well as future FRPR service. These projections and

forecasts will be used to support activities in the Station Facility Design (Task 7) and quantifying space needs of design elements.

Deliverables:

Technical memorandum – will include a description of existing service, track conditions, and projected ridership at the station

Coordination meetings with Amtrak

Coordination meetings with freight operators – BNSF/Union Pacific

5. RAILROAD INFRASTRUCTURE MODIFICATIONS / IMPROVEMENTS

The consultant will develop a track improvement plan to accommodate the new Amtrak Southwest Chief service proposed for Colorado Springs. These infrastructure and train signal improvements will be necessary since there has not been regularly scheduled passenger rail service in Colorado Springs for some time. The ability to access a preferred station location with a siding off the mainline track will need to be determined. Lastly a station platform meeting Amtrak and Federal Railroad Administration (FRA) specifications will need to be designed to serve whatever station location is selected.

The design of these infrastructure improvements and station platform must not preclude the future passenger rail service connecting to the north (Colorado Springs/Denver/Fort Collins) or to the south (Walsenburg/Trinidad). The draft document will also contain a map(s) depicting the future potential connections to a Front Range Passenger Rail System to the south and north from Colorado Springs.

Deliverables:

Conceptual design of rail infrastructure improvements

Conceptual design of station platform

Map(s) depicting future north/south connections to Front Range Passenger Rail system

6. ENVIRONMENT AND ECONOMIC DEVELOPMENT IMPACTS

For the two finalist station locations identified in Task 3, the project team will perform a high-level analysis of environmental and community impacts of the project, including: wetlands, contamination issues, impacted community facilities, noise and vibration impacts, traffic impacts, multi-modal linkages, private property acquisitions (if any), effect on property values and other relevant factors identified. With respect to community impacts, the consultant will work with the community to review the proposed station locations for conformance with land use, community plans and zoning.

An overview and technical memorandum will be developed related to economic development opportunities for each of the two sites that will illustrate the potential for increased revenue to the City and El Paso County due to increased property values and private sector investment and development opportunities attributed to passenger rail facilities. Included as a work element of the economic development

impact task is an evaluation of options pertaining to station ownership and examining community development patterns to identify strategies which will encourage private sector development and investment.

The environmental and economic development considerations and findings for the two contending sites will be documented and through this process, a single preferred alternative site will be selected. The selected site will exhibit all or most of the identified criteria in Task 3 as well as show the most favorable impact on economic development for the City and County and the most minimal impact on the environment.

Deliverables:

Technical memorandum documenting environmental impacts

Technical memorandum documenting potential for economic development

Technical memorandum documenting final preferred alternative site.

Meetings with Stakeholders

7. STATION FACILITY DESIGN

Based on the outcomes from the above tasks and public input, the project team will prepare recommendations on the design elements, components, and facilities to be included in conceptual station designs. Sketches of design elements will be prepared along with a narrative to provide a more complete understanding of the design concept. Preliminary site plans (i.e. sketch type plans that are not architectural grade) may also be developed for the preferred site, as well as up to two additional station sites which incorporate the required space and facility needs as identified in earlier study tasks. The station facility design will address items such as those identified below:

- Passenger waiting facility
- Platform – height and design standards
- Platform - accommodations, access, and canopy
- Auto pick-up/drop-off areas
- Parking areas
- ADA requirements
- Transit and taxi stop
- On-site circulation
- Station signage
- Wayfinding signage
- Supportive uses (internal/on-site): retail, commercial
- Electronic ticketing and kiosks
- Security measures
- Bicycle racks
- Fencing
- LEED Certification
- Other facilities and design elements

Deliverables:

Technical memorandum describing the design elements noted above
Conceptual design sketch drawings
Preliminary site plans for three station sites (including the preferred alternative)

8. FACILITY SITING EQUITY ANALYSIS

Mountain Metropolitan Transit is required to complete a *Facility Siting Equity Analysis* for the preferred rail station site as stated in its Title VI Program.

The Title VI Circular states the following regarding the siting of new facilities:

“In determining the site or location of facilities, a recipient or applicant may not make selections with the purpose or effect of excluding persons from, denying them the benefits of, or subjecting them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin...Facilities included in this provision include, but are not limited to, storage facilities, maintenance facilities, operations centers, etc.”

This Analysis should follow the facility siting equity evaluation guidance identified in the current Title VI Program, and needs to meet the requirements of that Program (see attached) and any other federal Title VI requirements.

Deliverables:

The consultant will develop a document preparation and review schedule that includes:

- Draft *Analysis* technical memo to be distributed to, and reviewed by the project team
- Second draft of *Analysis* reviewed by the project team
- Final *Facility Siting Equity Analysis*.

9. DRAFT DOCUMENT / PRELIMINARY RECOMMENDATIONS

Based upon input obtained and the results reached from the above tasks, a draft study document with preliminary recommendations will be prepared. This document will first be reviewed by the client and then undergo a public comment period during which a second public meeting will be held to present the findings and preliminary recommendations as well as to gather additional public comment. Included as part of this task are briefings to Colorado Springs City Council and other boards and committees as necessary.

Deliverables:

Draft study documentation
Maps, graphics, and conceptual designs
Public presentation of study results and preliminary recommendations

10. FINAL DOCUMENT

This last task consists of finalizing the study documentation, the recommendations that identify the key elements to be included in the preferred passenger rail station

design, and rail infrastructure improvements. Recommendations will also be included outlining the next steps by which to further this initiative and to re-establish passenger rail service, including options related to funding of capital improvements.

Deliverables:

Final study documentation

Maps, graphics, and conceptual designs

The Contractor shall not perform any act, fail to perform any act, or refuse to comply with any request which would cause a violation of the FTA terms and conditions.

NO GOVERNMENT OBLIGATION TO THIRD PARTIES

The Agency and Contractor acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to the Agency, Contractor or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract. Examples of "subject data" include, but are not limited to computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information, but do not include financial reports, cost analyses, or other similar information used for performance or administration of the Contract.

1. The Federal Government reserves a royalty-free, non-exclusive and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use for "Federal Government Purposes," any subject data or copyright described below. For "Federal Government Purposes," means use only for the direct purposes of the Federal Government. Without the copyright owner's consent, the Federal Government may not extend its Federal license to any other party.

a. Any subject data developed under the Contract, whether or not a copyright has been obtained; and

b. Any rights of copyright purchased by the Contractor using Federal assistance in whole or in part by the FTA.

2. Unless FTA determines otherwise, the Contractor performing experimental, developmental, or research work required as part of this Contract agrees to permit FTA to make available to the public, either FTA's license in the copyright to any subject data developed in the course of the Contract, or a copy of the subject data first produced under the Contract for which a copyright has not been obtained. 3. Unless prohibited by state law, upon request by the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the Federal Government, its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under that contract. The Contractor shall be required to indemnify the Federal Government for any such liability arising out of the wrongful act of any employee, official, or agents of the Federal Government.

4. Nothing contained in this clause on rights in data shall imply a license to the Federal Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Federal Government under any patent.

5. Data developed by the Contractor and financed entirely without using Federal assistance provided by the Federal Government that has been incorporated into work required by the underlying Contract is exempt from the requirements herein, provided that the Contractor identifies those data in writing at the time of delivery of the Contract work.

PROMPT PAYMENT

The contractor is required to pay its subcontractors performing work related to this contract for satisfactory performance of that work no later than 30 days after the contractor's receipt of payment for that work. In addition, the contractor is required to return any retainage payments to those subcontractors within 30 days after the subcontractor's work related to this contract is satisfactorily completed.

The contractor must promptly notify the Agency, whenever a DBE subcontractor performing work related to this contract is terminated or fails to complete its work and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. The contractor may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of the Agency.

SIMPLIFIED ACQUISITION THRESHOLD

Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. § 1908, or otherwise set by law, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. (Note that the simplified acquisition threshold determines the procurement procedures that must be employed pursuant to 2 C.F.R. §§ 200.317–200.327. The simplified acquisition threshold does not exempt a procurement from other eligibility or processes requirements that may apply. For example, Buy America's eligibility and process requirements apply to any procurement in excess of \$150,000. 49 U.S.C. § 5323(j)(13).

TERMINATION

Termination for Convenience (General Provision)

The Agency may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Agency's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to Agency to be paid the Contractor. If the Contractor has any property in its possession belonging to Agency, the Contractor will account for the same, and dispose of it in the manner Agency directs.

Termination for Default [Breach or Cause] (General Provision)

If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, the Agency may terminate this contract for default. Termination shall be effected by serving a Notice of Termination on the Contractor setting forth the manner in which the Contractor is in default. The Contractor will be paid only the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract. If it is later determined by the Agency that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, the Agency, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a Termination for Convenience.

Opportunity to Cure (General Provision)

The Agency, in its sole discretion may, in the case of a termination for breach or default, allow the Contractor [an appropriately short period of time] in which to cure the defect. In such case, the Notice of Termination will state the time period in which cure is permitted and other appropriate conditions

If Contractor fails to remedy to Agency's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within [10 days] after receipt by Contractor of written notice from Agency setting forth the nature of said breach or default, Agency shall have the right to terminate the contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude Agency from also pursuing all available remedies against Contractor and its sureties for said breach or default.

Waiver of Remedies for any Breach

In the event that Agency elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this contract, such waiver by Agency shall not limit Agency's remedies for any succeeding breach of that or of any other covenant, term, or condition of this contract.

Termination for Convenience (Professional or Transit Service Contracts)

The Agency, by written notice, may terminate this contract, in whole or in part, when it is in the Agency's interest. If this contract is terminated, the Agency shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

Termination for Default (Supplies and Service)

If the Contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension, or if the Contractor fails to comply with any other provisions of this contract, the Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. The Contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Agency.

Termination for Default (Transportation Services)

If the Contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension, or if the Contractor fails to comply with any other provisions of this contract, the Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of default. The Contractor will only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while the Contractor has possession of Agency goods, the Contractor shall, upon direction of the Agency, protect and preserve the goods until surrendered to the Agency or its agent. The Contractor and Agency shall agree on payment for the preservation and protection of goods. Failure to agree on an amount will be resolved under the Dispute clause.

If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Agency.

Termination for Default (Construction)

If the Contractor refuses or fails to prosecute the work or any separable part, with the diligence that will ensure its completion within the time specified in this contract or any extension or fails to complete the work within this time, or if the Contractor fails to comply with any other provision of this contract, Agency may terminate this contract for default. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature of the default. In this event, the Agency may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. The Contractor and its sureties shall be liable for any damage to the Agency resulting from the Contractor's refusal or failure to complete the work within specified time, whether or not the Contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the Agency in completing the work.

The Contractor's right to proceed shall not be terminated nor shall the Contractor be charged with damages under this clause if: 1. The delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include: acts of God, acts of Agency, acts of another contractor in the performance of a contract with Agency, epidemics, quarantine restrictions, strikes, freight embargoes; and 2. The Contractor, within [10] days from the beginning of any delay, notifies Agency in writing of the causes of delay. If, in the judgment of Agency, the delay is excusable, the time for completing the work shall be extended. The judgment of Agency shall be final and conclusive for the parties, but subject to appeal under the Disputes clause(s) of this contract. 3. If, after termination of the Contractor's right to proceed, it is determined that the Contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of Agency.

Termination for Convenience or Default (Architect and Engineering)

The Agency may terminate this contract in whole or in part, for the Agency's convenience or because of the failure of the Contractor to fulfill the contract obligations. The Agency shall terminate by delivering to the Contractor a Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the notice, the Contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the Agency's Contracting Officer all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. Agency has a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, all such data, drawings, specifications, reports, estimates, summaries, and other information and materials.

If the termination is for the convenience of the Agency, the Agency's Contracting Officer shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If the termination is for failure of the Contractor to fulfill the contract obligations, the Agency may complete the work by contract or otherwise and the Contractor shall be liable for any additional cost incurred by the Agency. If, after termination for failure to fulfill contract obligations, it is determined that the Contractor was not in default, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Agency.

Termination for Convenience or Default (Cost-Type Contracts)

The Agency may terminate this contract, or any portion of it, by serving a Notice of Termination on the Contractor. The notice shall state whether the termination is for convenience of Agency or for the default of the Contractor. If the termination is for default, the notice shall state the manner in which the Contractor has failed to perform the requirements of the contract. The Contractor shall account for any property in its possession paid for from funds received from the Agency, or property supplied to the Contractor by the Agency. If the termination is for default, the Agency may fix the fee, if the contract provides for a fee, to be paid the Contractor in proportion to the value, if any, of work performed up to the time of termination. The Contractor shall promptly submit its termination claim to the Agency and the parties shall negotiate the termination settlement to be paid the Contractor.

If the termination is for the convenience of Agency, the Contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a Notice of Termination for Default, the Agency determines that the Contractor has an excusable reason for not performing, the Agency, after setting up a new work schedule, may allow the Contractor to continue work, or treat the termination as a Termination for Convenience.

VIOLATION AND BREACH OF CONTRACT

Rights and Remedies of the Agency

The Agency shall have the following rights in the event that the Agency deems the Contractor guilty of a breach of any term under the Contract.

1. The right to take over and complete the work or any part thereof as agency for and at the expense of the Contractor, either directly or through other contractors; 2. The right to cancel this Contract as to any or all of the work yet to be performed; 3. The right to specific performance, an injunction or any other appropriate equitable remedy; and 4. The right to money damages.

For purposes of this Contract, breach shall include.

Rights and Remedies of Contractor

Inasmuch as the Contractor can be adequately compensated by money damages for any breach of this Contract, which may be committed by the Agency, the Contractor expressly agrees that no default, act or omission of the Agency shall constitute a material breach of this Contract, entitling Contractor to cancel or rescind the Contract (unless the Agency directs Contractor to do so) or to suspend or abandon performance.

Remedies

Substantial failure of the Contractor to complete the Project in accordance with the terms of this Contract will be a default of this Contract. In the event of a default, the Agency will have all remedies in law and equity, including the right to specific performance, without further assistance, and the rights to termination or suspension as provided herein. The Contractor recognizes that in the event of a breach of this Contract by the Contractor before the Agency takes action contemplated herein, the Agency will provide the Contractor with sixty (60) days written notice that the Agency considers that such a breach has occurred and will provide the Contractor a reasonable period of time to respond and to take necessary corrective action.

Disputes

Disputes arising in the performance of this Contract that are not resolved by agreement of the parties shall be decided in writing by an authorized representative of Agency. This decision shall be final and conclusive unless within [10] days from the date of receipt of its copy, the Contractor mails or otherwise furnishes a written appeal to the Agency's authorized representative. In connection with any such appeal, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its position. The decision of the Agency's authorized representative shall be binding upon the Contractor and the Contractor shall abide by the decision.

In the event that a resolution of the dispute is not mutually agreed upon, the parties can agree to mediate the dispute or proceed with litigation.

Notwithstanding any provision of this section, or any other provision of this Contract, it is expressly agreed and understood that any court proceeding arising out of a dispute under the Contract shall be heard by a Court de novo and the court shall not be limited in such proceeding to the issue of whether the Authority acted in an arbitrary, capricious or grossly erroneous manner.

Pending final settlement of any dispute, the parties shall proceed diligently with the performance of the Contract, and in accordance with the Agency's direction or decisions made thereof.

Performance during Dispute

Unless otherwise directed by Agency, Contractor shall continue performance under this Contract while matters in dispute are being resolved.

Claims for Damages

Should either party to the Contract suffer injury or damage to person or property because of any act or omission of the party or of any of its employees, agents or others for whose acts it is legally liable, a claim for damages therefor shall be made in writing to such other party within a reasonable time after the first observance of such injury or damage.

Remedies

Unless this Contract provides otherwise, all claims, counterclaims, disputes and other matters in question between the Agency and the Contractor arising out of or relating to this Contract or its breach will be decided by arbitration if the parties mutually agree, or in a court of competent jurisdiction within the State in which the Agency is located.

Rights and Remedies

The duties and obligations imposed by the Contract documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law. No action or failure to act by the Agency or Contractor shall constitute a waiver of any right or duty afforded any of them under the Contract, nor shall any such action or failure to act constitute an approval of or acquiescence in any breach thereunder, except as may be specifically agreed in writing.
