Class Specification – Safety Specialist II

Summary Statement:

The purpose of this position is to support the employee safety program by providing broad range of consulting and safety services by working with and supporting various departments. This is accomplished by developing safety training; conducting training sessions for employees concerning safety laws and regulations; the proper use of safety equipment; investigating causes of accidents or injuries and develop solutions to minimize or prevent recurrence; compiling, analyzing, and interpreting statistical data related to exposure factors concerning accidents; and implementing an employee driver safety program to reduce property damage and bodily injuries.

DISTINGUISHING CHARACTERISTICS:

This is the full journey level class within the Safety Specialist series. Employees within this class are distinguished from the (I level) by the performance of the full range of duties as assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from level I, or when filled from the outside, have prior experience.
