What is sales tax?

The tax to be collected and remitted by a retailer on sales" taxed" under the City tax Code. Per the City Tax Code, any person engaged in business in the City and making sales of property or specific services subject to the sales tax, even though not maintaining an office in this City, must collect and remit the sales tax on these sales in like manner as Colorado Springs persons collect and remit the sales tax.

When do I need a sales tax license?

A sales tax license must be obtained by any person engaged in the business of selling and/or leasing at retail within the City.

How much is the sales tax license?

The sales tax license is \$20.00- January 1 through June 30th of the even-numbered year, \$15.00- July 1 through December 31st of the even-numbered year, \$10.00- January 1 through June 30th of the odd-numbered year, \$5.00- July 1 through December 31st of the odd-numbered year. After receipt of a completed application, the license will be mailed within 3-4 weeks of the month stated on Line#10 of your application (Start Date of Business in Colorado Springs). Until a license number is issued, you may use a copy of your completed application and receipt as proof you are engaged in business and have applied for a City Sales Tax License.

I only plan on selling my product for a few days. Do I still need a license?

Yes, you will need a temporary sales tax license only. The fee is \$20.00 per location and expires immediately following the event or after 60 days. A cash deposit may also be required.

What is a use tax ONLY account?

Any business that purchases tangible personal property for its own use, storage or consumption without the payment of the City sales tax should apply to the City for a Use Tax Account. This specific account is used for or limited to businesses that make no retail sales. There is no license fee for a use tax only account. This account is active until cancelled in writing by the account holder.

What is use tax?

If you purchase furniture, fixtures, equipment (not inventory) or supplies for use, storage or consumption in the City without paying the City sales tax you owe a use tax. You owe one or the other NOT both. The use tax is paid directly to the City by you, the consumer.

Examples:

- If you purchase office supplies from a direct mail catalog company outside the City and City tax is not charged, you must pay use tax directly to the City instead of the sales tax.
- You purchase a computer on the internet and no City tax is charged, you must pay use tax directly to the City instead of the sales tax.

Transactions specifically exempt from the City sales tax are also exempt from the City use tax.

I am a construction contractor; do I pay sales tax on my materials and supplies?

Yes, all construction materials and supplies brought into or used within the City are taxable. There is no exemption for jobs performed for government, religious or charitable organizations, as the contractor and/or subcontractor is considered the consumer of all tangible personal property used or consumed within the City.

If I make a sale to a church or charitable organizations do I have to collect the tax?

No, however the burden of proof of exempt sales rests with you. Religious and charitable organizations within the City are required to have a certificate of exemption provided by the City. Payment must also be made directly by the exempt organization.

Are service sales taxable?

Businesses primarily engaged in providing a service generally do not have to collect the City of Colorado Springs sales tax on that service. Charges for labor or services to install, apply, remodel or repair tangible personal property are not taxable, AS LONG AS the charge for the service is separately stated on the invoice to the consumer from any tangible personal property furnished as part of the service. If no separation is made, City sales tax applies to the total amount of that sale. Businesses that render a service or perform a service contract must pay sales tax or report use tax on purchases of tangible personal property used, stored, or consumed in Colorado Springs in the performance of their services.

I make tangible personal property; do I have to collect sales tax on my labor?

Yes, the sales or use tax is imposed on the full retail selling price of tangible personal property sold after manufacture or after having made to order.

I repair tangible personal property; do I have to charge sales tax on labor?

No, as long as the bill (invoice) separates the parts used from the labor expended, the tax may be charged on the parts only. Otherwise, the entire invoice amount is taxable.

What if I am an e-commerce business, do I need a sales tax license?

It depends on where you and your customer reside and how you are “shipping” the tangible personal property. If your business is in Colorado Springs and you have a customer in Colorado Springs, you need to have a City of Colorado Springs and Department of Revenue Sales Tax license to collect a tax rate of 8.25%. If your business is in Colorado Springs and your customer is within El Paso County, yet outside of the City of Colorado Springs you will need to contact the Department of Revenue to see if you need a license you may need to collect a tax rate of 5.13%. If your business is in Colorado Springs and your customer is anywhere within the State of Colorado you will need to contact the Department of Revenue to see if you need a license to collect a tax rate of 2.9%. If your business is in Colorado Springs and your customer resides outside of the state of Colorado and you will be mailing by common carrier (USPS, UPS &/or FedEx) you do not need to collect sales tax, your customer should be made aware that they should contact their local taxing jurisdiction to find out what they may or may not need to do in reference to use tax. IMPORTANT: this does not apply to delivery or when a transaction takes place in person. If transactions take place through delivery or in person outside of the City of Colorado Springs you will need to contact that local taxing jurisdiction and ask them what constitutes “nexus and/or engaged in business”.

I have a business on a local military base; do I need a sales tax license?

Peterson Air Force Base is the only base located within the city limits of Colorado Springs. If retail sales are being made to non-exempt individuals/entities, a sales tax license from the City of Colorado Springs is required. Fort Carson, US Air Force Academy, Cheyenne Mountain Air Force Station and Schriever Air Force Base are all located outside the City of Colorado Springs, contact the Department of Revenue.
