**Class Specification – Utility Locator II**

<b>Summary Statement:</b>	
<p>The purpose of this position is to support the City of Colorado Springs by identifying, locating and marking the location of all owned underground facilities; this includes irrigation water, storm water, fiber, traffic signals and communications installations. The locator marks facilities to alert excavators that the City has buried subsurface utilities in order to facilitate safe excavation during construction activities, as well as to minimize accidental damage and disruption of service.</p>	
<b>DISTINGUISHING CHARACTERISTICS:</b>	
<p>This is the full journey level class within the Utility Locator series. Employees within this class are distinguished from the (I level) by the performance of the full range of duties as assigned. Employees at this level receive only occasional instruction or assistance as new or unusual situations arise, and are fully aware of the operating procedures and policies of the work unit. Positions in this class are flexibly staffed and are normally filled by advancement from level I, or when filled from the outside, have prior experience.</p>	
<b>Essential Functions</b>	Note: Regular and predictable attendance is an essential function in the performance of this job.
<b>Time %</b> (All below must add to 100%)	Note: Time spent on each essential function will vary based on operational needs and is only intended to be an approximation over the course of a full year.
50%	Completes marks and locate requests in order to facilitate safe excavation during construction activities. Responds to customer complaints. Interacts with contractors, coworkers, the general public and other outside agencies to establish and maintain effective working relationship and to coordinate the location of utility lines. Communicates verbally and in writing with customers and contractors. Ensures compliance with all state and federal regulations.
50%	Maintains and updates records; reads and interprets maps and construction drawings to accurately mark utility lines. Creates charts and drawing to display various utility lines using GIS or other specialized computer software. Submits map updates as necessary. Support Locator I positions with answering questions related to inventory and proper locating techniques.
