- f) Be submitted using the forms in the Exhibit section of this solicitation.

## 1.22 INTERPRETATION OF QUANTITIES IN PROPOSAL FORM

Except as otherwise provided in this RFP, the quantities appearing in the proposal form are estimates prepared for the comparison of proposals.

After award, payment to the Contractor will be made in accordance with the following procedures:

- (a) Measurement required. When the Contract requires measurement of work performed or material furnished, payment will be made for actual quantities measured and accepted.
- (b) Measurement Not Required. When the Contract does not require quantities of work performed or materials furnished to be measured, payment will be made for the quantities appearing in the Contract.

The estimated quantities of work to be performed and materials to be furnished may be increased, decreased or omitted.

### **1.23 INTERPRETATION OF PLANS AND SPECIFICATIONS**

Any change to proposal forms, plans, or specifications prior to the opening of proposals will be issued by the City in the form of an Amendment. Certain individuals may be named in the RFP that have authority to provide information, clarification or interpretation to Offerors prior to opening of proposals. Information obtained from persons other than those named individuals is invalid and shall not be used for proposal purposes.

### **1.24 EXAMINATION OF PLANS, SPECIFICATIONS, SPECIAL PROVISIONS, AND SITE OF WORK.**

The Offeror is expected to examine the site of the proposed work, the proposal, plans, specifications, supplemental specifications, special provisions, and Contract forms, before submitting a proposal. The submission of a proposal will be considered conclusive evidence that the Offeror has made this examination and is aware of the conditions to be encountered in performing the work according to the Contract.

Boring logs and other records of subsurface investigations, if they exist, are available for inspection by Offerors. These logs and records are made available so that all Offerors have access to identical subsurface information that is available to the City, and is not intended as a substitute for personal investigation, interpretation, and judgment of the Offerors.

The City does not warrant the adequacy of boring logs and other records of subsurface investigations, and such information is not considered to be a part of the Contract. When a log of test borings is included in the subsurface investigation record, the data shown in the individual log of each test boring apply only to that particular boring and are not intended to be conclusive as to the character of any material between or around test borings. If Offerors use this information in preparing a proposal, it is used at their own risk, and Offerors are responsible for all conclusions, deductions, and inferences drawn from such information.

Offerors may conduct subsurface investigations at the project site at Offeror's expense; the City will afford them this opportunity prior to public opening of proposals.

If an Offeror discovers an apparent error or omission in the proposal form, estimated quantities, plan, or specifications, the Offeror shall immediately notify the Contracting Specialist to enable the City to make any necessary revisions. The City may consider it to be detrimental to the City for an Offeror to submit an obviously unbalanced unit proposal price.

## **1.25 COMBINATION OR CONDITIONAL PROPOSALS**

If an RFP is issued for projects in combination and separately, the Offeror may submit proposals either on the combination or on separate units of the combination. The City reserves the right to make awards on combination or separate proposals to the advantage of the City. Combination proposals will be considered, only when specified.

## **1.26 ANTI-COLLUSION AFFIDAVIT**

The Offeror by signing their proposal submitted to the City is certifying that the Offeror has not participated in any collusion or taken any action in restraint of free competitive bidding. This statement may also be in the form of an affidavit provided by the City and signed by the Offeror. The original of the signed anti-collusion affidavit, if separately required and provided with the RFP, shall be submitted with the proposal. The proposal will be rejected if it does not contain the completed anti-collusion affidavit.

## **1.27 MATERIAL GUARANTY**

The successful Offeror may be required to furnish a complete statement of the origin, composition, and manufacture of materials used in the construction of the work together with samples, which will be tested for conformance with Contract requirements.

## SECTION II – PROPOSAL CONTENT

### 2.0 PROPOSAL CONTENT

Section II provides instructions regarding the format and content required for proposals submitted in response to this solicitation.

### 2.1 PROPOSAL FORMAT

Offeror's written proposal should include concise, but complete, information, emphasizing why the Offeror is best or best qualified to provide the required services. The Offeror's written proposal should include the information in the format outlined below and must be limited to no more than twenty-five (25) pages. **A page shall be defined as 8-1/2" x 11"; single sided, with one inch margins, and a minimum font of Times New Roman 10.** The only exception to the 8-1/2" x 11" paper size is the proposed project schedule. It may be submitted on 11" x 17" paper. Each 11" x 17" page for the schedule shall be counted in the overall page limitations above. Each section of the proposal should be labeled to clearly follow the requirements sections identified in this section of the RFP. The following listed Exhibits must be filled out and returned with the proposal and are not counted against the page limit:

Exhibit 1	Proposal Certification
Exhibit 3	Exceptions
Exhibit 4	Qualification Statement
Schedule A	Price Sheet
Schedule D	Minimum Insurance Requirements
Acknowledged Addenda, if issued	

### 2.2 COVER LETTER

The cover letter shall be no more than three pages. The cover letter shall contain at least the following information.

- A. RFP Number and Project Name.
- B. Statement that the Offeror is qualified to perform the work.
- C. Certification Statement that the information and data submitted are true and complete to the best knowledge of the individual signing the letter.
- D. Name, telephone number, email address, and physical address of the individual to contact regarding the proposal.
- E. The signature of an authorized principal, partner, or officer of the Offeror.

### 2.3 PROPOSAL CERTIFICATION

The Offeror must fill out and submit Exhibit 1 with its Proposal.

## **2.4 ORGANIZATIONAL BACKGROUND AND OVERVIEW**

The Offeror must provide a brief history and overview of its company and its organizational structure, with special emphasis on how this project will fit within that structure. Also include principal place of business location(s), office locations, size of firm, and financial stability (annual public reports or private financial statements shall be included in an appendix or under separate cover; private financial information will be kept confidential by the City).

## **2.5 PROPOSAL NARRATIVE MANAGEMENT APPROACH**

In the proposal narrative/technical and management approach section, the Offeror should explain what the Offeror will do and how it will perform if awarded a contract.

### **2.5.1 MANAGEMENT AREA**

#### **A. Past Performance/Relevant Experience and Key Personnel**

In the Management Area, the Offeror should provide at least three references or name contracts demonstrating that it successfully provided services/products that are the same or similar to those required in the RFP. The proposal should adequately explain how the projects were completed on schedule and within budget. It is highly recommended that the Offeror provide sufficient content and detail to answer completely the following questions.

1. Does the proposal include at least three references or past performance citations?
2. Do the references or past performance citations demonstrate 5 years relevant experience?

## **2.6 PRICE AREA**

In the Price Area, the Offeror should provide a detailed breakdown of the price for each year of performance. The price must be all-inclusive and include all unit costs for material, labor, other direct costs (e.g. travel), indirect costs (i.e. overhead and general and administrative costs), and profit/fee. Offers must include sufficient detail to allow insight into the fairness and reasonableness of the price. If the contract type will be Time and Material (T&M) labor categories, labor rates, separated profit, and estimated material costs must be included in detail.

In addition, although price may not be the most important factor, it is still very important to the City of Colorado Springs. The Offeror's pricing must be competitive as compared to the budget amount, market pricing in the industry, and the pricing of other Offerors. It is highly recommended that the Offeror provide sufficient content and detail to answer completely the following questions.

1. How does the price compare to the industry competition?
2. If low, is it unrealistically low?
3. If high, is there demonstrated added value for the additional cost?
4. Is the price itemized, so that it is clear how the cost was built? If so, do the costs look appropriate for the task?
5. Does the Offeror leave applicable costs out of the calculations? For instance, some will say travel is not included and will be an extra cost. This should be considered when comparing to other Offerors.
6. Are there additional costs not addressed that the City would incur if the Offeror were awarded the contract? If so, include those costs when comparing to the budget amount and the competition.

## **2.7 PROPOSAL PRESENTATION**

Presentation is an important factor. Offerors should provide a highly professional product, which is complete, accurate, easily understood, and effectively presented.

## **2.8 EXCEPTIONS**

All Offerors must complete Exhibit 3, Exceptions Form and return it with their proposal. Some terms and conditions are not negotiable. Exceptions may be grounds for rendering the proposal unacceptable without further discussions.

## **2.9 INSURANCE REQUIREMENTS**

All Offerors must complete Schedule D, Minimum Insurance Requirements and return with their proposal. Lack of responsiveness in this area may be grounds for rendering the proposal unacceptable without further discussions.

## **SECTION III – EVALUATION FACTORS**

The score for each area will be determined by adding the total scores of the

criteria in each area. The total available points are 100 and allocated as follows:

Price/Cost Area: 75

Management Area: 20

Proposal Presentation Area: 5

#### E. Final/Overall Scoring

The final proposal score will be determined by adding the area scoring. The sum of the area scores will be the final/overall score.

### **1.3 SELECTION COMMITTEE**

A selection committee will review all proposals. Through this process, the City will determine which proposals are acceptable or unacceptable. The City will notify, in writing, the Offerors whose proposals are deemed to be unacceptable. Those Offerors offering proposals deemed to be acceptable by the City will be evaluated and scored by the selection committee. This scoring will determine which Offerors are considered to be in the competitive range and may be the basis for an award decision without further steps.

If the selection committee elects not to award based upon evaluation scoring, it may engage in a forced elimination process. To inform this process, it may require oral presentations or interviews with the Offerors considered to be in the competitive range. If oral presentations or interviews are conducted, they may also be scored, or they may simply be considered as information supporting the forced elimination process. The selection committee may request revisions to the proposal from each of the Offerors at the conclusion of the interviews. The intent of the forced elimination process is to reach consensus. The decision will be based on all relevant factors, and based upon perception of best value. The final decision may or may not exactly reflect scoring ranking.

The City also reserves the right to request best and final offers from all Offerors at any point in the proposal evaluation process.

### **3.4 AWARD OF CONTRACT**

It is anticipated that there will be negotiations or discussions with Offerors. However, the City reserves the right to award without negotiations or discussions. The City also reserves the right to award a contract not necessarily or merely to the Offeror with the most advantageous price. The City intends to award to the Offeror that demonstrates the best value to the City and the most substantiated ability to fulfill the requirements contained in this Request for Proposal. A contract prepared by the City will be finalized and/or negotiated with the successful Offeror. In the event a contract cannot be negotiated with the top ranked Offeror, the City may enter into negotiations with the second highest ranked Offeror, or the City may decide to call for new proposals. Immediately after the notice of award, the

successful Offeror will begin planning in conjunction with the City of Colorado Springs staff (to be designated by the City) to ensure fulfillment of all its obligations. The successful Offeror may be expected to attend regular meetings as required by the City to assist in the preparation for startup.

By signing this Contract, Contractor represents that it is a sophisticated business and enters into the Contract voluntarily, has calculated all business risks associated with this Contract, and understands and assumes all risks of being terminated for convenience, whether such risks are known or not known. Contractor agrees that the City may terminate this Contract at any time for convenience of the City, upon written notice to the Contractor. Contractor expressly agrees to and assumes the risk that the City shall not be liable for any costs or fees of whatsoever kind and nature if termination for convenience occurs before Contractor begins any work or portion of the work. Contractor further expressly agrees and assumes the risks that the City shall not be liable for any unperformed work, anticipated profits, overhead, mobilizations costs, set-up, demobilization costs, relocation costs of employees, layoffs or severance costs, administrative costs, productivity costs, losses on disposal of equipment or materials, cost associated with the termination of subcontractors, costs associated with purchase orders or purchases, or any other costs or fees of any kind and nature, if Contractor has started or performed portions of the Contract prior to receiving notice from the City. The City shall be liable only for the portions of work Contractor actually satisfactorily completed up to the point of the issuance of the Notice of Termination for convenience. Upon receipt of this notice the Contractor shall immediately: discontinue all services affected (unless the notice directs otherwise), and deliver to the City all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this Contract, whether completed or in process.

**B. Termination for Cause:** The occurrence of any one or more of the following events (“Event of Default”) will justify termination for cause:

- vii. A custodian, receiver, trustee or liquidator of Contractor, all or substantially all of the assets or business of Contractor, or of Contractor's interest in the Work or the Contract, is appointed in any proceeding brought against Contractor and not discharged within sixty (60) Calendar Days after that appointment, or if Contractor shall consent to or acquiesces in that appointment.

If such plan to correct the Event of Default is not submitted to the Project Manager within ten (10) days after the date of the written notice or such plan is unacceptable to the City, the City may, give Contractor (and the Surety, if any) written notice that Contractor's services are being terminated for cause. Upon delivery of the termination notice, City may terminate the services of Contractor in whole or in part, exclude Contractor from the site, and take possession of the work and of all Contractor's tools, appliances, construction equipment, and machinery at the project site, and use the same to the full extent they could be used by Contractor (without liability to Contractor for trespass or conversion), incorporate in the work all materials and equipment stored at the site or for which City has paid Contractor but which are stored elsewhere, and finish the

## **SCHEDULE C – SCOPE OF WORK FOR WAYFINDING POST INSTALLATION**

### **Open Space Wayfinding Posts Installation Multiple Open Space Locations**

The parks department is seeking a contractor(s) to install new wayfinding post along the entire natural surface trail system within several Colorado Springs open spaces. Red Rock Canyon Open Space, Ute Valley Park, Austin Bluffs Open Space and North Cheyenne Canyon Park.

The scope of work includes the implementation of new wayfinding post within the open spaces, including the removal of existing signs where present on site and installation of new recycled plastic wayfinding posts and metal sleeve cap, carsonite posts and all necessary hardware. The City of Colorado Springs will be responsible for placement of stickers and decals at a later date. Specifically, the work includes:

#### ***Removal and disposal of existing trail wayfinding signs and post:***

The price in the schedule shall include all labor and equipment to remove without intent to salvage materials of all existing timber posts and plastic/aluminum trail marker signs. The materials removed can be disposed of at the Park Admin Office at 1401 Recreation Way Colorado Springs, 80905, in the service yard trash pile or legally disposed of at an appropriate facility. Contractor shall be responsible for hauling off the old post and associated debris from the open space. Holes in the ground from removed posts must be backfilled immediately.

#### ***Installation of new wayfinding posts:***

The price in the schedule shall include all labor and equipment necessary to furnish, prepare and install (dig hole, placement, and back fill and compact) all Plastic Timber wayfinding posts per plan. This may include cutting the post to size, digging the post hole, setting the post level and square and back filling the post. The post shall be recycled plastic posts as specified in the plans.

#### ***Installation of new wayfinding metal sleeves/caps:***

The price in the schedule shall include all labor and equipment necessary to fabricate, powder coat, install and attach the metal wayfinding sleeves on the installed posts. Sleeves shall be attached/anchored per the details provided.

#### ***Installation of new Carsonite posts:***

The price in the schedule shall include all labor and equipment necessary to prepare and install all Carsonite Posts per the plans. This may include digging the post hole, setting the post level and square and back filling and compacting fill at the post. All Carsonite posts are to be provided by the City of Colorado Springs and will be available for pick up at the Parks Admin Offices at 1401 Recreation Way, Colorado Springs, 80905.

**Post in Bedrock installation considerations (Line Items 17-20):**

Based on preliminary soils analysis, there may be locations, potentially as many as ten (10) locations with posts and carsonite that may need to be anchored into bedrock, or the post hole excavated through weather bedrock for full depth. Alternative locations with less bedrock may be discussed with the Project Manager prior to installation. Parks preference is to reduce need to anchoring in bedrock when possible.

**Line Items 17 and 18:** For post and carsonite installation in bedrock, the contractor shall provide an ad alt price to fabricate and install an anchor for each post type to attached post to bedrock. The anchor bracket shall be used for bedrock at a depth of 0” to 12” depth (bracket to be backfilled with native soil if below surface). This shall be the preferred method for bed rock encounters. This cost shall be all inclusive for materials, fabrication, installation and labor of anchor, post and all hardware/materials.

**Line Items 19 and 20:** In some site-specific locations where trail wayfinding posts and carsonite posts are to be installed may have shallow bedrock greater than 12” in depth, preventing a standard post installation. In locations where the rock anchor is not used but bedrock is found in the hole, the bedrock shall be excavated to achieve proper depth of hole. This shall be in hard bedrock that cannot be augured through or easily broken with a rock back as part of the standard installation. The contractor shall provide a unit cost for the hard rock bedrock excavation per linear foot depth that is an additional cost over and above the standard post installation. This shall be used in locations for the recycled plastic timber posts were where bedrock is encountered at a depth between 13” and 36” and for carsonite posts 13” to 20” in depth.

**Notes about Site Access:**

**All the four locations listed in this bid request are popular parks and busy trails. There are peak times usually in the early mornings, lunch time and late afternoons. This should not impact work, but the contractor should be made aware of working in an open space with busy trails. Visitation to the parks and open spaces will increase with nice weather days and on the weekend.**

**Red Rock Canyon Open Space** is a very popular recreational destination on the southwest side of Colorado Springs. Peak traffic occurs between 8am to 10 and 3-6pm every day. Weekends tend to be busiest so Parks suggests no work should occur during this time. There are several administrative access roads that may be used for contractor truck access. Additionally, many of the trails may be wide enough for ATV and Skid Steer access. The contractor shall be responsible for any damage to the trails caused by their access. Limited cross-country travel will be permitted in most areas so long as it’s dispersed to minimize impacts to vegetation.

**Ute Valley Park** is a smaller property on the northwest side of Colorado Springs, yet still well visited with trail users. Traffic is steady throughout the day but is more popular late afternoons and on the weekend. The Park has a less truck access internally

however there are numerous access points around the park for the contractor. There are still several trails that may be access via ATV or Skid Steer. The contractor shall be responsible for any damage to the trails caused by their access. Limited cross-country travel will be permitted in most areas so long as it's dispersed to minimize impacts to vegetation.

**Austin Bluffs Open Space** is located on the north end of downtown Colorado Springs. The City has constructed several miles of new trails this last year so use has been increasing. There three "regional trails" that run east west through the property. The "Regional Trails" are accessible for pickup trucks, ATV or similar equipment. The perimeter of the open space has several access points from the neighborhood roadways. Trail connectivity is good from the roadways and regional trails. The compost wayfinding posts for Austin Bluffs project will be provided by the City. Please ensure bid costs for Austin Bluffs Open Space consider this material being provided to the contractor.

**North Cheyenne Canon Park** is located on the southwest corner of Colorado Springs. The park is well visited and popular with tourist in the summer. The park is accessed via North Cheyenne Canon Road and Gold Camp Road which provides for good access to the trails. Beyond the roadway, the trails are not as easily accessed with ATV or similar equipment.

All properties have several other portals for foot access throughout the open space to shorten the necessary haul and access to each post location.

The contractor will be provided a copy of keys to access the gates on all properties to drive equipment and vehicles into the properties. Minimal off trail access will be permitted as requested and identified by the contractor and approved by parks staff. The contractor shall not modify, change or in any way manipulate the trail tread in order to accommodate access. Trail closures are not anticipated with this work, but the Contractor will be responsible to placing advanced warning (signs or cones) to alert trail users of work ahead.

All Carsonite posts for installation will be provided by the City of Colorado Springs. The contractor shall provide the recycled plastic timber posts, fabricated steel sleeves, lag screws, bolts, washers, nuts for signage installation. Parks Staff will field mark post locations and orientation prior to work starting. The contractor shall be responsible for calling for Utility Locates (811) prior to installation.
